348964	2200-12550-001	Four-line SIP with Polycom HD Voice, black

### SoundPoint IP 650 Telephone

POLYCOM

The SoundPoint IP 650 is designed to appeal to both executive users who require advanced features and applications as well as attendants who need multiple line support.

#### FEATURES

- Applications: executive office or attendants
- Up to six lines (standalone mode) or 34 lines (expansion module)
- Revolutionary voice quality with Polycom HD Voice technology
- Cutting-edge SIP features and applications
- Expandable to support three Polycom SoundPoint IP expansion modules
- Interoperable with leading SIP-based IP PBX and Softswitch platforms
- USB port for future applications

Anixter No.	Vendor No.	Description
342841	2200-12651-001	Six-line SIP with Polycom HD Voice, black

### 9480i CT and 9480i CT IP Screenphones

AASTRA TELECOM

The 9480i is a multiline IP-based screenphone for the desktop. It is a flexible solution that is designed to integrate with IP Centrex as well as a wide variety of IP-based telephony systems. The 9480i offers an extended feature set, advanced security and interoperability through a new internal design that supports Aastra R2.x software - the same software that supports the Aastra 67xi series of IP telephones. The 9480i CT includes a cordless telephone for mobility workers.

#### FEATURES

- 9480i and 9480i CT base:
  - Eight-line backlit display, up to nine-call appearance lines
  - Extensive storage capacity for personal directory, callers log and redial list
  - Tightly integrates with a wide variety of IP telephony systems
  - Full-duplex speakerphone with excellent voice clarity, XML browser support
  - Firmware upgrades can be downloaded and installed in the field
  - Dual 10/100 Mbps switched Ethernet ports
  - Headset-compatible

# Voice over IP

- Four navigational keys
- Programmable keys and predefined keys for common call functions
- 9480i CT cordless handset:
  - 2.4 GHz frequency hopped spread spectrum technology
  - Five-line backlit display
  - Coverage of up to 300,000 square feet
  - Two softkeys for tight integration to base unit features
  - Programmable function key supports up to 14 functions
  - AC wall adapter for charging stand

Anixter No.	Vendor No.	Description
374834	9480i	Charcoal
374835	9480i CT	Charcoal, cordless handset

## 9143i IP Telephone

AASTRA TELECOM

The 9143i is an advanced, fully featured multiline IP telephone that takes full advantage of VoIP technology by offering a flexible, interoperable solution at an affordable price. The 9143i offers an extended feature set, advanced security and interoperability through a new internal design that supports the more powerful Aastra R2.x software - the same software that supports the Aastra 67xi Series of IP telephones.

### FEATURES

- Three-line backlit display
- Enhanced call management, large storage for personal directory, callers log and redial list
- Tightly integrates with a wide variety of IP telephony systems
- High-performance speakerphone
- Firmware can be upgraded in the field
- Built in 10/100 Mbps Ethernet ports
- Headset-compatible
- Extensible Markup Language (XML) support
- Multiple SIP proxy support
- Seven programmable keys with LEDs

Anixter No.	Vendor No.	Description
374781	9143i	Fully featured multiline SIP, charcoal, extended feature set

## 67xi Series VoIP Telephones

AASTRA TELECOM

### FEATURES

- XML browser - Improved productivity and convergence via access to custom XML applications and information
- Enhanced call management - Large storage for personal directory, callers log and redial list. Multiple navigational keys and configurable speed dial key with LED indicators
- Tight integration - Fully interoperable with leading IP-PBX platforms for easy deployment
- Multiple line/call appearance lights - Support up to nine simultaneous calls and juggle multiple calls easily with a single press of a button (available on most models)
- Shared call appearances - Shared calls allow you to place a call on hold at one set and pick it up at another set (available on most models)
- Remarkable audio - Quality full-duplex speakerphone with excellent voice clarity/delivery and headset support options. Multicast group paging support. Intercom with auto-answer
- Scalability - Expand the total number of programmable keys via 36-keys paper expansion module or 60-keys LCD expansion module; scalable up to 180 keys via three modules (available with most models)
- Firmware upgrades can be downloaded and installed in the field
- Less wiring - Built-in dual 10/100 Mbps switched Ethernet ports let you share a connection with your computer; inline power support eliminates the need for a power adapter (available with most models)

### 6730i VOIP TELEPHONES

The 6730i is an entry level VoIP telephone with a slimmer design and up to six call appearance lines. The 6731i has the features of the 6730i, but with the additional features of PoE capable and two Ethernet ports.

Anixter No.	Vendor No.	Description
396409	6730i	Charcoal, AC wall adapter included
396413	6731i-01	Charcoal, PoE powered, AC wall adapter not included
423735	6731i-02	Charcoal, PoE powered, AC wall adapter included

### 6739i VOIP TELEPHONE

The 6739i is a feature-rich IP telephone that offers a large 5.7 in. full color LCD screen. It has built-in dual Gigabit Ethernet support, is Bluetooth headset compatible, and supports PoE. An optional power adapter is sold separately. It also supports the M670i and M675i expansion modules.

Anixter No.	Vendor No.	Description
406207	6739i	Executive-level featured multiline SIP

# Voice over IP

(continued) 67xi Series VoIP Telephones

### 6753i VOIP TELEPHONE

The 6753i is a featured, expandable VoIP telephone. With up to nine call appearance lines, it also supports up to three M670i expansion modules.

Anixter No.	Vendor No.	Description
353968	6753i	Featured multiline SIP, charcoal

### 6755i VOIP TELEPHONE

The 6755i is an advanced featured, expandable VoIP telephone that has a larger display screen. It also supports up to three M670i or M675i expansion modules.

Anixter No.	Vendor No.	Description
353981	6755i	Advanced featured multiline SIP, charcoal

### 6757i AND 6757i CT VOIP TELEPHONES

The 6757i and 6757i CT are fully featured, expandable VoIP telephones. They offer the largest display screen in the 67xi line. They also support up to three M670i or M675i expansion modules. The CT model includes a cordless handset and charger base, with 2.4 GHz frequency Hopped Spread Spectrum. The cordless handset integrates with base phone features, offering: a five-line backlit display, vibration alerter, LED indicators and headset connector.

Anixter No.	Vendor No.	Description
353988	6757i	Fully featured multiline SIP, charcoal
353994	6757ICT	Fully featured multiline SIP with cordless handset, charcoal

## 67xi Series Expansion Modules

AASTRA TELECOM

The 67xi Series expansion modules are designed to increase the power and flexibility of the 67xi series SIP telephones. Up to three modules can be used with a 6753i, 6755i, 6757i or 6757i CT telephone to create a powerful, feature-rich console option. Modules share power and signaling with the phone, eliminating the need for additional wiring. Designed for receptionists, administrative assistants, call center agents, power users and executives who need to monitor and manage a large volume of calls on a regular basis. The 67xi Series expansion modules provide an intelligent choice for all enterprise IP environments.

### FEATURES

- Choices - two different models to give user choices of budget versus convenience
- Flexible and feature-rich - supports speed-dial, call appearance lines, shared call and bridged line appearances, and busy lamp field (maximum of 50 BLF per phone)
- Ease of deployment - power and signaling are shared with the phone, thereby avoiding any additional wiring expenses; configuration is also simplified via Web or configuration file from the phone
- Ease of use - whether paper- or LCD-based, associated LED for each key provides quick status indication of the managed calls

Anixter No.	Vendor No.	Description
354042	M670i	Expansion module, paper based
354048	M675i	Expansion module, LCD based

## MBU 400 Gateway

AASTRA TELECOM

This mobility solution includes one MBU 400 gateway base unit and one 420D handset. It is also expandable to support up to eight 420D handsets with eight unique SIP registrations. Combining this with one FXO port produces a fully integrated SIP and analog service for small businesses.

Anixter No.	Vendor No.	Description
423738	MBU 400	MBU 400 office mobility solution, one base unit and one 420D handset
423739	420D DECT	MBU 400 handset with 1.5 in. backlit LCD display

## Voice over IP

## 3Com Voice Technology

3COM

3Com IP Telephony and Convergence applications are the cornerstone of secure converged networks. 3Com IP Telephony solutions, comprising NBX and VCX platforms, scale from five to 50,000 users. 3Com offers a wide range of IP phones, usable with NBX as well as with VCX. For smooth migration from legacy TDM PBX networks, 3Com offers a comprehensive suite of analog and digital VoIP gateways. The convergence application suite, comprising unified messaging, conferencing, presence and contact center, increases user productivity and strengthens customer interactions. As one of the leaders in secure converged networks, 3Com offers a complete IP Telephony and convergence applications portfolio.

## SpectraLink 8002 Wireless Telephone

SPECTRALINK

The SpectraLink 8002 wireless telephone is a cost-effective, business-grade mobile telephony solution for small- to medium-sized businesses. Using the Wi-Fi Alliance's WMM QoS standard, the SpectraLink 8002 wireless telephone interoperates with most consumer-grade and SMB access point infrastructure devices, alleviating the need to install and maintain additional hardware while still providing enterprise-level security and quality voice communications. In keeping with the needs of the market segment, the SpectraLink 8002 is packaged in complete, ready-to-install bundles that include a single or dual charger, battery pack and a power supply.

## FEATURES

- 802.11b radio
- SIP integrations with multiple telephony platforms
- WMM QoS standards-compatible
- Small lightweight form factor
- NiMH battery packs supporting three hours talk time and 50 hours standby time
- Rugged ABS plastics for increased durability
- Single and dual charging options

# Wireless Telephones

## SpectraLink 6000 System

SPECTRALINK

The SpectraLink 6000 System is a dedicated wireless voice system, providing the highest level of reliability and security with minimal administration and maintenance. The SpectraLink 6000 System is the preferred choice of more enterprises in the U.S. than any other wireless system available.

### FEATURES

- Proven handset design for use in all business environments
- Scalable architecture for up to 3,200 users
- Interfaces to leading telephony platforms
- Superior radio performance
- Integration with market-leading applications

### SPECTRALINK 6100 INFRASTRUCTURE

The SpectraLink 6100 MCU is conveniently sized to support 16 wireless telephone users and four base stations. Four SpectraLink 6100 MCUs can be connected together by an Inter-Processor Communication (IPC) cable to support as many as 64 users and 16 base stations

Anixter No.	Vendor No.	Description
276278	SCA508	SpectraLink 6100 M3 MCU 8-port analog interface
276279	SCA516	SpectraLink 6100 M3 MCU 16-port analog interface
276282	SCD508	SpectraLink 6100 M3 MCU 8-port universal digital interface
276283	SCD516	SpectraLink 6100 M3 MCU 16-port universal digital interface
276285	SCF516	SpectraLink 6100 M3 MCU 16-port 4-wire universal digital interface
276286	SCN516	SpectraLink 6100 M3 MCU 16-port Nortel Meridian 1 and universal digital interface
276290	SCX516	SpectraLink 6100 M3 MCU 16-port Mitel SX-Series digital interface
329226	MKR151	Rack-mount kit
251158	RCC410	Standard base station for SpectraLink 6100 systems
251160	RC0410	Outdoor enclosure base station for SpectraLink 6100 systems

### SPECTRALINK 6300 INFRASTRUCTURE

The SpectraLink 6300 MCU is the processing center for large-scale deployments. It consists of at least one primary shelf and up to 19 expansion shelves and can support up to 3,200 users. The primary shelf contains the system controller card that manages call processing for the wireless network. Telephone line and base station connections are made to an interface module. Each module supports 16 wireless telephones and six base stations, for up to 180 wireless telephones and 60 base stations per shelf. Multiple sites can be networked using T1 circuits between up to 18 remote shelves and the main site

Anixter No.	Vendor No.	Description
276291	CPA316	SpectraLink 6300 analog interface module
276293	CPD316	SpectraLink 6300 universal digital interface module
276295	CPM316	SpectraLink 6300 Mitel digital interface module
276296	CPN316	SpectraLink 6300 Nortel Meridian 1 and universal digital interface module
276268	CRC301	T1 remote module
276269	CSC300	SpectraLink 6300 expansion shelf controller
276270	CSC301	SpectraLink 6300 single-shelf system controller
276273	CS0300	SpectraLink 6300 expansion shelf controller, OAI enabled
276274	CS0301	SpectraLink 6300 single-shelf system controller, OAI enabled
276298	MCS300	SpectraLink 6300 shelf
332372	MKA320	SpectraLink 6300 administration kit with modem
198685	RCC400	Standard base station for all systems
285793	RCH400	High-density base station for SpectraLink 6300 systems, deployed exclusively with other RCH400s
251156	RC0400	Outdoor enclosure base station for all systems

## Wireless Telephones

## SpectraLink 6020 Wireless Telephones

SPECTRALINK

The SpectraLink 6020 wireless telephones are designed specifically for use within the enterprise. They are extremely durable, and unlike consumer-grade cellular phone designs, have no moving parts, no external antennas and no complex configuration menus. The handsets have a rugged design with a large earpiece to provide comfort and seal out background noise.

**FEATURES**

- Provides all the features of a wired telephone set
- Simple to operate without extensive training
- Durable enough to withstand the rigors of daily use
- Superior voice quality comparable to a wired telephone

Anixter No.	Vendor No.	Description
328963	LTB100	Wireless telephone with vibrating ringer and backlit display/keypad

332484	WT0102	Coiled lanyard with clothing clip for 6000/8000 series handsets
348656	WT0150	Swivel clip for 6020/8020 series handsets
332493	WT0310	Swivel carrying case for 6020/8020 series, black with keypad cover
332494	WT0320	Rugged holster, black

## Voice Products

## Audioconferencing Telephones

## VoiceStation 300 and 500

POLYCOM

Designed as a clear alternative to half-duplex handset speakerphones, both the VoiceStation 300 and 500 deliver professional-quality conferencing to offices and other smaller meeting areas. Note: The VoiceStation 500 connects to Bluetooth-enabled mobile phones and computers.

**FEATURES**

- Full-duplex performance-simultaneous two-way communication so everyone can hear and be heard clearly
- Three microphones/one speaker (not expandable)
- Combination iconic/alpha-numeric keypad mute, flash, hold, redial, data port (on power supply)
- Wall-mountable
- Warranty: 12 months

Anixter No.	Vendor No.	Description
332199	2200-17910-001	VoiceStation 300
332202	2200-17900-001	VoiceStation 500

## SoundStation2

POLYCOM

Ideal for small- to medium-sized conference rooms, the SoundStation2's distinctive, award-winning design is familiar throughout the world. The SoundStation Conference Phone makes natural, full-duplex (two-way) conversations easy without clipping or distortion. Simple to install and use, extension microphones expand range for medium- to larger-sized rooms.

**FEATURES**

- Echo cancellation and suppression adapt automatically to changing rooms and telephone lines
- Mute buttons/dual-color LED status lights
- Integrated keypad eliminates the need for a separate phone
- Powerful speaker

- Three quality cardioid microphones
- Full-duplex operation makes conversation natural and clear

## SoundStation2W

POLYCOM

The SoundStation2W is a conference phone without cords that gives you the freedom to conference anywhere team collaboration is important, even in rooms where there are no phone lines. With superior voice quality, proven DECT 6.0 wireless technology, added security of voice encryption, up to 24 hours of talk time, and the ability to dial through a cell phone, the SoundStation2W is raising the standard for everyday conferencing. With reliable 150 ft. wireless roaming from the base station, wireless frequency hopping to avoid interference, and a long-lasting lithium-ion battery, the SoundStation2W truly meets today's needs for excellent voice quality and usage flexibility.

**FEATURES**

- DECT 6.0 (1.9 GHz) wireless technology with 150 ft. range, 64-bit voice encryption
- Talk from up to 10 ft. away from the mic and be heard
- Noise reduction minimizes noise from projector and PC fans
- Expansion mics can be added (EX model only) and software upgradeable
- Works just like a regular conference phone

## Long-range Industrial Cordless Phone System

GENIUS

Longest-range cordless phone and two-way radio system for mobility behind a PBX, key system or PSTN lines. Single handset can access land-line, cellular, satellite or VoIP ports.

## FEATURES

- Schools - set up workgroups up to 32 lines and 90 users to cover indoor and outdoor campuses for improved safety. Two-way radios can be taken off-site for field trips
- Government and public safety - talk via two-way radio off-site or during power failures. Rugged housing protects handset from most drops
- Industrial - communicate via phone or two-way radio up to 250,000 sq. ft. in a warehouse or manufacturing plant
- Administrative and IT professionals - get your calls up to 12 floors in buildings behind a PBX or key system
- Agriculture/public works - cover up to 3,000 open acres with phone or two-way radio. Use the external antenna to get the signal above obstacles

For more information contact your local sales office.

## Long-range Industrial Cordless Phone and Two-way Radio System

GENIUS

## FEATURES

- Nine programmable PBX function soft keys
- Built-in two-way radio intercom and broadcast
- Two-way radio is independent of the base so it won't tie up a phone line
- Private, digital, full-duplex two-way radio intercom function, so you can talk and listen at the same time
- Broadcast feature allows handset users to send a half-duplex voice message to "all" handsets, to a "group" (up to nine different groups) or to a "single" handset
- Selectable, vibrate-to-loud ringer for all types of environments
- Expandable up to four lines (one line per base on single-line unit) and 36 handsets (nine handsets per base on single-line unit) and 90 handsets on a single base or eight base units on the four-line multi-base unit
- Call manager lets you control incoming calls
- Each base installs to a single CO line or analog port off a PBX or key system
- Digital spread spectrum with frequency hopping at 100 times per second
- Caller ID with call waiting, directory, transfer, flash, redial and mute
- Three-hour Li-Ion battery travel charger
- Desktop handset charger with spare battery slot
- Battery hot-swap capability
- Auto-power management to save battery life
- 2.5 mm direct headset connection (no adapter needed!)
- Optional long-range external antenna for indoor/outdoor use

DURAFON PRO (4-PORT/4-LINE/MULTIPLE BASE)

Expandable up to eight base units (32 ports) and up to 90 handsets. Supports broadcast through the base unit and DuraWalkie handsets. DuraWalkie is a two-way radio handset only. Speakerphone on both the DuraWalkie and Pro handsets. Optional external antenna to get above machinery, racking or to extend outdoor coverage

## Ultratec Uniphone

WEITBRECHT COMMUNICATIONS

The Uniphone is a telephone for users who are deaf or hard-of-hearing. It is a combination TTY (text telephone) and standard telephone with volume control. This TTY can be used for making voice carry over (VCO) calls. Using this application, you can speak directly to other people and read their typed responses on the display. VCO calls can be made directly through the toll-free relay service or directly between Uniphone users for privacy.

**FEATURES**

- Amplified handset to increase volume up to 20 dB
- Adjustable ringer volume
- Hearing aid-compatible handset
- Turbo code for real-time conversations
- Auto ID to automatically alert emergency services (and everyone you call) that you are calling by a TTY
- 48-character LCD display (two lines)
- Timer for call duration
- Built-in ring flasher
- Color: white

## S.M.A.R.T. Self Monitoring and Reporting Technology

GAI-TRONICS

Interfacing to a central computer equipped with GAI-Tronics Telephone Management Application (TMA) monitoring software, the phones perform advanced self-testing to ensure the health and functionality of the emergency communications system.

**FEATURES**

- Polls up to eight GAI-Tronics S.M.A.R.T. phones simultaneously
- Monitors for stuck buttons, line conditions (current levels), microprocessor self-test and call-in-progress interrupted
- GAI-Tronics S.M.A.R.T. phones will automatically report status to maintenance PC
- Offers visual indicators (GUI) for health status of each phone
- Provides inactive phone reports
- Call-usage reports (provides time, date and length of call)
- Provides exception reports
- Provides maintenance call reports
- Secured access to TMA via key attached to the PC's USB port
- System uses existing telephone line
- Telephone fault database
- Remote maintenance monitoring
- Offers remote telephone configuration
- Windows-based software application
- Cost-effective telephone maintenance
- System remains fully functional while being monitored
- S.M.A.R.T. GAI-Tronics model numbers: 293-003, 293AL-003, 294AL-003, 297-003, 298-003
- TMA (Telephone Management Application) software sold separately, Model no. 12509-024

For ordering information, contact your local sales representative.

## Wall-mount Emergency Telephone

GAI-TRONICS

**FEATURES**

- One-button call for help
- Auto-dials up to 24 digits
- Bright Safety Yellow housing (Model 293-001) - Valox
- Bright Safety Yellow housing (Model 293AL-001) - die-cast aluminum
- Finish (Model 293AL-001) - polyurethane finish for enhanced durability
- Front panel design maximizes usability, simplifies maintenance
- Large "Palm" activation button standard on all phones
- Standard phone line-powered
- No external power or battery required
- Remote programming
- Password protected
- Auto-answer
- Silent monitoring
- Auxiliary output activates peripheral equipment
- ADA compliance features standard on all models: features include Braille Help tag and "Call Received" LED
- Tamper-resistant hardware
- Custom colors and silk-screening available
- Model 293-003 and 293AL-003 features S.M.A.R.T. Self Monitoring and Reporting Technology
- Automatic LED light activation; red LED light flashes upon activation, steady when audio is detected (S.M.A.R.T. phones only)
- Extreme operating temperature range (-40°C to +60°C)
- NEMA 3R rated
- FCC registered, UL 60950 Listed and IC certified
- Model 233-001 tamper-resistant screwdriver is required for installation (sold separately)

## VoIP Wall-mount Emergency Telephone

GAI-TRONICS

GAI-Tronics' hands-free VoIP wall-mount telephone is designed to provide direct point-to-point communications between personnel throughout a facility over existing Internet protocol LANs. The VoIP telephone features real-time alarm reporting that enables system supervisors to monitor the phones' activity and address caller's needs or maintenance issues immediately.

## FEATURES

- No additional interface required
- Web page configuration
- Real-time alarm reporting via e-mail
- Power over Ethernet or alternative 48 V DC supply
- SIP compatible
- RJ45 LAN or WAN direct connection
- Automatic call divert (rollover), via memory list
- Four inputs and two outputs per phone
- ADA compliance features: Braille "HELP" label and "Call Received" LED indicator
- One-button call for help
- Bright Safety Yellow Housing (Model 293-700) - Valox
- Bright Safety Yellow Housing (Model 293AL-700) - cast aluminum
- Remote programming
- Password protected
- Auto-answer
- Silent monitoring
- Auxiliary output activates peripheral equipment
- Tamper-resistant hardware
- NEMA 3R rated
- Compliance to Standards FCC CRF 47 Part 15
- Model 233-001 tamper-resistant screwdriver is required for installation (sold separately)

## Emergency Phone Surface-mount Enclosures

GAI-TRONICS

**FEATURES**

- Accommodates GAI-Tronics' flush-mount emergency phones in surface-mount applications
- Non-corrosive aluminum construction
- Polyurethane finish for enhanced durability
- Offered in OSHA Yellow (236YL), Safety Red (236RD) or Standard Black (236BK)
- Telephone handset "Icon" label on side panels clearly indicates function to potential users
- Raised mounting bosses on rear for irregular surfaces
- USOC RJ11 connection terminal
- Can be pole-mounted using GAI-Tronics' Model 231-001 kit
- Custom colors and labeling available

Anixter No.	Vendor No.	Description
246955	236-001YL	Yellow
258676	236-001RD	Safety Red
258677	236-001BK	Standard Black

## Emergency Stanchion

GAI-TRONICS

**FEATURES**

- Architectural bronze color is aesthetically pleasing in all settings
- "Emergency" graphic on sides for high visibility
- Accommodates GAI-Tronics' flush-mount emergency phones
- Front panel light illuminates the telephone for night time use
- Durable powder-coated finish
- ADA-compliant
- Accommodates 530 Series beacon (sold separately)
- 3/16 in. thick cold rolled steel construction
- Height, 9.5 ft.
- Weight, 200 lb.
- Only UL 1598 Listed stanchion for outdoor installations on the market
- Solar, cellular, RF configurations available

Anixter No.	Vendor No.	Description
246953	234	Emergency stanchion

## Emergency Wall-mount Stanchion

GAI-TRONICS

### FEATURES

- Bright Safety Yellow color; easily spotted in crisis situation
- "Emergency" graphic on sides for visibility
- Accommodates GAI-Tronics' flush-mount emergency phones
- Wall-mounted design requires minimal space; easily handicapped-accessible
- Durable aluminum construction with powder-coated finish
- Front panel light illuminates the telephone for night time use
- ADA-compliant
- Accommodates 530 Series beacon (sold separately)
- Easy installation via detachable back-plate
- Only UL 1598 Listed stanchion for outdoor installations on the market
- Custom colors and graphics available

Anixter No.	Vendor No.	Description
246954	234WM-202	Emergency wall-mount stanchion

## Emergency Stanchion Broadcast Assembly

GAI-TRONICS

GAI-Tronics' Stanchion Broadcast Assembly provides high-quality, extremely intelligible voice and tone public address. Each assembly is addressable via DTMF signaling and is capable of being programmed for up to eight (8) addresses, allowing easy zoning of the public address system. An integral part of GAI-Tronics' campus public address system, the 234SBA is extremely versatile in that it can be accessed from GAI-Tronics' model ACC2500 Audio Control Center, an existing telephone network, radio system, or all three. The broadcast functionality operates completely separate from the two-way device installed in the stanchion. The rugged, submersible speakers will take anything Mother Nature can throw at them.

### FEATURES

- Architectural bronze powder epoxy finish with white emergency graphics
- 360° coverage at 110 dB SPL at 1 meter (4-speaker installation)
- 114 in. H with strobe lens, 3/16 gauge cold rolled steel
- Light housing (120 V AC) assembly

- Houses GAI-Tronics' 290 series flush panel telephones (sold separately)
- Uses GAI-Tronics 530 series strobe (sold separately)
- Broadcast audio access via 600 ohm audio pair input
- Addressable via DTMF (telephone or RF application)
- Remote volume control via DTMF
- Programmable output control for strobe or device activation during alarm
- Backup battery included (2.8 Ah) for one hour backup at full output
- PC programmable
- ADA-compliant
- UL 1598 Listed for Outdoor Installation
- Note - RF (UHF and VHF) input also available. Contact us for details

Anixter No.	Vendor No.	Description

## Emergency Stanchion Broadcast Module

GAI-TRONICS

GAI-Tronics' Stanchion Broadcast Module (SBM) installs on top of a Model 234 Stanchion to provide an easy and cost-effective public address upgrade of existing equipment. Each assembly is addressable via DTMF signaling and is capable of being programmed for up to eight (8) addresses, allowing easy zoning of the public address system. An integral part of GAI-Tronics' campus public address system, the SBM is extremely versatile in that it can be accessed from GAI-Tronics' model ACC2500 Access Control Center, an existing telephone network, radio system, or all three. The broadcast functionality operates completely separate from the two-way device installed in the stanchion. The rugged, submersible speakers will take anything Mother Nature can throw at them.

### FEATURES

- Architectural bronze powder epoxy finish
- 360° coverage at 110 dB SPL at 1 meter (4-speaker installation)
- 18 in. H, 3/16 gauge cold rolled steel
- Broadcast audio access via 600 ohm audio pair input
- Addressable via DTMF (telephone or RF application)
- Remote volume control via DTMF
- Programmable output control for strobe or device activation during alarm
- Backup battery included (2.8 Ah) for one hour backup at full output
- PC programmable
- Customer uses existing strobe and lens assembly for additional savings
- Note - RF (UHF and VHF) input also available. Contact us for details

### Emergency Beacons

GAI-TRONICS

GAI-Tronics' "Blue Light" LED strobe constant-on, blue "glow" easily identifies the nearest emergency phone location, even in bright sunlight. The LED technology greatly reduces maintenance costs (no bulbs to replace) and the low power consumption provides energy savings.

#### FEATURES

- High visibility, even in daylight
- Provides an integral blue LED tower with constant-on and flashing operations when telephone is activated
- 100,000 LED life (approx. 10 years)
- Secondary contact output for activation of external auxiliary equipment
- Low operating temperature
- Weatherproof design, rated NEMA 3R (upright installation only)
- Die-cast aluminum base
- UL Listed

Anixter No.	Vendor No.	Description
355895	530-001	Blue, 120 V AC unit
258679	531A	Blue, 24 V DC unit

### Wireless Addressable Amplified Speaker

GAI-TRONICS

GAI-Tronics' Addressable Amplified Speakers are suitable for any permanent or temporary public address paging application. With its built-in amplifier circuit, rated 8 watts at 12 V DC, there is no need for a separate power amplifier, increasing system reliability by removing the single point of failure and creating a distributed amplified system. The addressable amplified speaker performs a self adjustment of its output volume based on the surrounding ambient noise level.

#### FEATURES

- Built-in 8 watt amplifier for public address applications
- Radio control (UHF/VHF) and 600-ohm (telephone line) input models
- Addressable (individual, zoned, all-page) via DTMF
- Addressable output control

- Remote DTMF volume control, 80-116 dB SPL
- 12 V DC input power
- Low battery alert
- External long-life battery option
- Solar panel power option
- Battery backup option
- Surface or pole mounting
- Rainproof rating

Anixter No.	Vendor No.	Description
319906	13353	600-ohm input
319907	13363	VHF, 154 - 174 MHz
319908	13373	UHF, 450 - 470 MHz

### ADA-compliant Emergency Phones

VIKING ELECTRONICS

The 1600A Series ADA-compliant emergency phones are designed to provide quick and reliable hands-free communications for any standard analog telephone line or analog phone system station port. All 1600A Series phones meet ADA requirements for elevator/emergency telephones, and can be programmed from any touch-tone phone. The phones can dial up to five programmable emergency numbers, as well as two central station numbers. In addition, the E-1600-20A features a second "Info" button that will dial up to three nonemergency numbers. The 1600A Series phones can be programmed to automatically deliver a digital announcement to identify the location of the emergency call. Alternatively, a DTMF touch-tone code may also be delivered. A "Call Connected" LED can be initiated manually or automatically. All programming parameters, including phone numbers and location numbers, are stored in nonvolatile memory. All units are phone line-powered, requiring no batteries or external power, and are compatible with common central station monitoring equipment. For outdoor or harsh environments, select 1600A Series phones are available with Enhanced Weather Protection (EWP). EWP products feature rubber gaskets and boots, hand-soldered silicon-sealed connections, gel-filled butt connectors, as well as urethane potted circuit boards with weather-sealed, field-adjustable trim pots and DIP switches for easy on-site programming.

#### FEATURES

- Meets ADA requirements for emergency phones
- Can automatically light the "Call Connected" LED for the hearing impaired
- Transmits a unique location I.D. code or voice announcement
- Grade 2 Braille label for the visually impaired
- Nonvolatile digital voice announcer with 16 seconds of voice memory
- Advanced call progress detection
- Hands-free operation
- Phone line-powered
- Nonvolatile memory (no batteries required)
- Touch-tone or pulse dialing
- Dials up to five emergency numbers

# Emergency/Door Telephones

- E-1600-20A can dial up to three nonemergency "Info" numbers
- Cycles through backup emergency and nonemergency numbers on busy or no-answer
- Optional Enhanced Weather Protection (EWP)
- Hangs up on CPC, silence, busy signal, dial tone, time-out or touch-tone command
- Programmable to auto-answer on incoming calls
- Remotely programmable
- Extended temperature range (-15°F to 130°F)
- Seven different chassis or board only is available
- Available in a 42 in. tall tower phone model E-1600A-BLT-EWP or E-1600A-BLT2EWP
- Central station monitoring capability (dials two numbers)
- Separate central station voice speed-dial number
- Optional PB-100 polling system available
- Optional BLK-3-EWP strobe light kit available

## Hands-free Doorboxes

VIKING ELECTRONICS

The W-1000 (flush-mount), W-2000A (surface-mount) and W-3000 (flush-mount) and W-3005 (flush-mount with camera) doorboxes are designed to be installed on the unused telephone line input of nearly any phone system. One or two doorboxes can also share an existing residential phone line when used in combination with a C-1000B doorbox controller.

For outdoor or harsh environments, the W-1000, W-2000A and W-3000 and W-3005 are available with Enhanced Weather Protection (EWP). The W-1000-EWP, W-2000A-EWP, W-3000-EWP and W-3005-EWP feature rubber gaskets and boots, closed cell foam gasketing, hand-soldered silicon-sealed connections, anticorrosive gel-filled butt connectors, as well as urethane-encapsulated circuit boards with internally sealed, field-adjustable trim POTS and DIP switches.

### FEATURES

- High-output speaker amplifier with volume adjustment POT
- Microphone volume adjustment POT
- 24 V talk battery
- 20 Hz ring generator (3.0 REN ring load maximum)
- Selectable number of rings
- Extended operating temperature range - 15°F to 130°F
- Compact 45° terminal strip for easy wiring
- Optional Enhanced Weather Protection (EWP)
- W-3005 features a built-in high-resolution color video camera with wide viewing angle, tilt/swivel adjustments and wide operating temperature range

## Emergency/Door Telephones

## Hands-free Phone with Keypad

VIKING ELECTRONICS

The K-1700-3 provides a tough and attractive hands-free phone for apartment and residential door entry or applications requiring a vandal-resistant speakerphone. When the "Call" button is pressed, the K-1700-3 returns a dial tone. The keypad may then be used to dial any number. If no touch-tone is entered within eight seconds, CPC is detected, a busy signal is detected, or the programmable maximum call time has elapsed, the K-1700-3 will automatically disconnect. Model K-1705-3 has all of the same features as the K-1700-3 and also includes a color video camera. The K-1700 and K-1705 series entry phones are available in two attractive finishes: "brushed stainless steel" and "oil rubbed bronze." For outdoor or harsh environments, the K-1700-3 and K-1705-3 are both available with Enhanced Weather Protection (EWP). EWP products feature rubber gaskets and boots, closed cell foam gasketing, hand-soldered silicon-sealed connections, anticorrosive gel-filled butt connectors, as well as urethane-encapsulated circuit boards with internally sealed, field-adjustable trim POTS and DIP switches.

**FEATURES**

- Vandal-resistant features: 14 gauge, louvered, stainless steel faceplate with stainless steel speaker/mic screen, heavy-duty metal keypad and call button
- Available in two standard faceplate finishes: brushed stainless steel or oil rubbed bronze
- Model K-1705-3 features a built-in high-resolution color video camera with wide viewing, tilt/swivel adjustments and wide operating temperature range
- Optional Enhanced Weather Protection (EWP)
- Yellow "in use" LED
- Volume adjustments for microphone and speaker
- Advanced call progress detection: disconnects on busy signal, return to dial tone, CPC reorder tone, maximum call time out and selectable silence time out
- Selectable auto-answer feature
- Selectable push-button disconnect
- Zinc-plated steel rough-in box with two 3/4 in. conduit knockouts
- Optional VE-6x7 surface-mount box available
- Selectable maximum call time
- Selectable momentary or continuous touch-tone output
- Selectable VOX switching speed
- Model K-1705-3 has an integral high-resolution color video camera with wide viewing angle

## Hands-free Speakerphone with Dialer

VIKING ELECTRONICS

The E-30 hands-free phone is designed to provide quick and reliable hands-free communications and can be connected directly to a C.O. line or analog PABX/KSU station. The E-30 features nonvolatile memory, a built-in five-number dialer, and intelligent call progress detection for automatic hang-up when the call is completed. Model E-35 has all of the same features as the E-30, and also includes a color video camera.

The E-30-EWP shares all of the features of the E-30 in addition to Enhanced Weather Protection (EWP) for installation in harsh environments. EWP products feature rubber gaskets and boots, hand-soldered silicon-sealed connections, gel-filled butt connectors, as well as urethane potted circuit boards with weather sealed, field-adjustable trim pots and DIP switches for easy on-site programming.

**FEATURES**

- Hands-free operation
- Phone line-powered
- Vandal-resistant stainless steel faceplate with heavy-duty metal call button
- Model E-35 features a built-in high-resolution color video camera with wide viewing, tilt/swivel adjustments and wide operating temperature range
- Nonvolatile memory (no batteries required)
- Touch-tone or pulse dialing
- Programmable to dial up to five numbers on busy or ring no answer
- Red off-hook LED indicator
- Hangs up on CPC, silence, busy signal, return to dial tone, time out or a touch-tone command
- Programmable to auto-answer on incoming calls

## Emergency/Door Telephones

- Remotely programmable
- Extended temperature range (-15°F to 130°F)
- Flush-mountable using included plastic rough-in box
- Shown in optional VE-5x5 surface-mount backbox

## Compact Video Entry Phones

VIKING ELECTRONICS

The E-50 Series video entry phones are compact, weather- and vandal-resistant speakerphones designed to provide two-way, hands-free audio communication and color composite video of who is at your door or gate. The E-50's compact size allows it to be mounted in a standard single-gang electrical box. The E-50 is available in five different attractive finishes to match your door hardware, light fixtures, etc. Replacement E-50 faceplates (PNL50) can be purchased separately and are available in all five standard finishes. The E-50's blue LED continually provides light for locating the push button in dark locations, dims to indicate off hook and flashes during incoming ring. The E-50 entry phones can share a single phone line with house or small business telephones when used with a Viking Model C-200 or C-250 or C-2000B entry phone controller. The E-50 entry phones can also be connected to an unused analog station port (programmed for ringdown) on a phone system or connected directly to a telephone line when used with a Viking Model K-1900-5 or K-1900-30 auto dialer. The E-50 features a built-in high-resolution color video camera, microphone and speaker volume controls, selectable auto answer for monitoring and intelligent call progress detection for automatic hang-up when the call is completed. For extreme outdoor environments or corrosive atmospheres, the E-50 Series is available with Enhanced Weather Protection (EWP).

## Voice Products

## Industrial Telephones

## Auto-dial Telephones

GAI-TRONICS

GAI-Tronics' industrial telephones are designed for those applications where standard telephones are not environmentally suitable. The auto-dial telephones are programmed to automatically dial when the handset is taken off hook. The phones have a detachable programming keypad, preventing unauthorized tampering of the pre-programmed phone number.

## FEATURES

- Anti-corrosive housing
- Non-moveable hookswitch
- Hearing aid compatible (HAC)
- Volume control handset
- Noise-canceling microphone
- Industrial strength Hytrel handset cord resists up to 250 lb. of pull strength
- Auto dials up to 31 digits
- Extreme operating temperature range (-40°C to +60°C)
- NEMA 3R rated
- FCC registered, UL 60950 Listed and IC certified

Anixter No.	Vendor No.	Description
141122	257-001	Auto-dial telephone

## Indoor/Outdoor Industrial Telephones

GAI-TRONICS

GAI-Tronics' indoor and outdoor industrial telephones are designed for applications where standard telephones are not environmentally suitable. The telephones include standard items such as a proximity detecting hookswitch with no moving parts and a sealed keypad to keep out dust, dirt and moisture. Typical applications include public areas, plant entrances, college campuses, airports, commercial locations, parking garages and amusement parks.

## FEATURES

- Anti-corrosive enclosure
- Non-moveable hookswitch
- Sealed metallic Braille keypad

- Hearing aid compatible (HAC)
- Volume control handset
- Noise-canceling microphone
- Industrial strength Hytrel handset cord resists up to 250 lb. of pull strength
- Extreme operating temperature range (-40°C to +60°C)
- NEMA 3R rated
- FCC registered, UL 60950 Listed and IC certified

Anixter No.	Vendor No.	Description
141123	246-001	Indoor version
142507	256-001	Outdoor version
128694	256-001SK	Outdoor version with spring kit

## Hazardous Area Telephones

GAI-TRONICS

GAI-Tronics' Hazardous Area Telephones utilize an "intrinsically-safe" design; this configuration limits the power to the telephone to a low enough level that a hazardous condition cannot occur. These telephones are significantly less expensive, more feature-rich and easier to maintain than the old explosionproof design utilized by other manufacturers.

## FEATURES

- Replaces explosionproof telephones without replacing system cable in most applications
- Weather-resistant, anticorrosive design
- "Shrill-type" penetrating ringer
- Noise-canceling microphone
- Low sidetone for noisy environments
- Switchable power supply - 110 V AC/220 V AC
- Industrial strength Hytrel handset cord resists up to 250 lb. of pull strength
- Sealed metallic Braille keypad
- Hearing aid compatible (HAC)
- Extreme operating temperature range (-40°C to +60°C)
- NEMA rated 3R
- FCC registered, C(UL) / UL listed

Anixter No.	Vendor No.	Description
326772	261-001	Indoor version
326771	271-001	Outdoor version

## Industrial Telephones

## Clean Telephones

GAI-TRONICS

The GAI-Tronics Clean Phone unit's hands-free operations are ideal for clean rooms and other sterile environments. The advanced software makes this phone sophisticated enough to handle complex operations while maintaining ease of use. Visual graphics are printed on the reverse side of the overlay to prevent particulate shedding and ensuring longevity. The Clean Phone is ideal for semiconductor facilities, pharmaceutical plants and hospitals. The Model 40411-004 power supply (sold separately) is required for installation.

## FEATURES

- Completely smooth front panel with sealed overlay keeps phone particulate-free
- Easy to clean and resistant to chemical wash down
- Two auto-dial numbers for quick communication at the touch of a button
- Auto-answer option allows clean room or operating room personnel to answer calls without leaving their stations
- "Flash" button allows phone to use all features of a PBX system
- Oversized buttons allow easy operation for gloved hands
- Button functions are clearly indicated for ease of use
- Requires Model 40411-004 power supply (sold separately)

Anixter No.	Vendor No.	Description

## Tough Phone

GAI-TRONICS

The "Tough Phone" was developed for public and industrial areas requiring a virtually indestructible telephone. Each "Tough Phone" is housed in a 1/4 in. thick, sand-cast aluminum enclosure, coated with an exterior polyurethane finish. Standard equipment includes a spring return door, 15 in. lanyard armored cord resistant up to 800 lb. of pull strength, chrome-plated keypad and proximity hookswitch. The Model 233-001 tamper-resistant screwdriver is required for installation.

## FEATURES

- Super-rugged cast aluminum enclosure is anti-corrosive
- Weather-resistant and vandalproof design
- Non-moveable chrome-plated hookswitch
- Lanyard embedded armored handset cord resists up to 800 lb. of pull strength
- Sealed metallic Braille keypad (226-001)
- Sealed handset
- Hearing aid compatible (HAC)
- Volume control handset
- Noise-canceling microphone
- Autodial (227-001) automatically dials up to 31 digits when handset is taken off-hook
- Tamper-resistant hardware
- NEMA 3R rated
- Extreme operating temperature range (-40°C to +60°C)
- FCC registered UL 60950 Listed and IC certified

## Industrial Telephone

GAI-TRONICS

GAI-Tronics' Industrial Telephones perform in environments too tough for standard telephones. Standard equipment includes a 29 in. lanyard armored cord resistant up to 800 lb. of pull strength, chrome-plated keypad and proximity hookswitch. The 270 Series design enhances the flexibility to flush-mount into the wall or surface-mount (using 236 Series wall enclosure). The Model 233-001 tamper-resistant screwdriver (sold separately) is required for installation.

## FEATURES

- 14 gauge brushed stainless steel
- Weather-resistant and vandalproof design
- Non-moveable chrome-plated hookswitch
- 29 in. lanyard embedded armored handset cord resists up to 800 lb. of pull strength
- Sealed metallic keypad (276-001)
- Sealed handset
- Hearing aid compatible (HAC)
- Volume control handset
- Noise-canceling microphone
- Auto-dial (277-001) automatically dials up to 31 digits when handset is taken off-hook
- Tamper-resistant hardware
- Extreme operating temperature range (-40°C to +60°C)
- NEMA 3R rated
- FCC registered, UL 60950 Listed and IC certified

### Industrial Telephone Enclosures

GAI-TRONICS

#### FEATURES

- Glass-reinforced polyester enclosure
- Equipped with a No. 630 mounting plate to accommodate a standard wall telephone
- Weather-resistant design
- Suited for harsh outdoor use

Anixter No.	Vendor No.	Description
094987	255-001	Enclosure with 630A mounting plate
127649	255-001LD	Enclosure with keylock door
161781	255-001SK	Enclosure with spring-loaded door

### Hot-line Phones

VIKING ELECTRONICS

The K-1900 Series of hot-line phones are programmable to dial a 1- to 32-digit telephone number each time the phone's handset is lifted. The products may be programmed to touch-tone or pulse-dial and will not dial on incoming calls. The K-1900 Series phones are available in a desk or wall chassis, as well as in a vandal-resistant stainless steel panel phone configuration. For outdoor or harsh environments, the K-1900-7 is available with (EWP) Enhanced Weather Protection.

#### FEATURES

- Phone line-powered
- Hearing aid-compatible amplified handsets
- Rotary handset volume control
- 1- to 32-digit programmable speed-dial number
- Touch-tone and 10/20 pps pulse dialing
- Nonvolatile memory (no batteries required)
- Restricts fraudulent calls from hand-held dialers
- K-1900D/W-2 available in red or ash
- Operates on a C.O. line or analog PABX/KSU extensions
- Ring detection (will not dial on incoming calls)
- Programmable security code to enter programming mode
- Touch-tone programmable

### Digital Feedback Eliminator

VALCOM INC

The digital feedback eliminator records and saves the message, then rebroadcasts it over the speaker system, eliminating the need to move speakers or telephones for a quick and easy solution.

#### FEATURES

- Only one unit is needed to eliminate feedback to all zones
- Can be used on a single-zone page adapter
- Automatically adjusts the output level to a consistent volume
- Records a page while playing a recorded page
- High-fidelity
- Solid-state design
- LED indicators for play, record, busy and power
- Dipswitch programmable features
- Two audio outputs

Anixter No.	Vendor No.	Description
255252	V-9964	Feedback eliminator

### Door-answering Device

VALCOM INC

Provides talk-back communication between an entryway or doorway and a telephone system or dedicated single telephone set. Also, unlock the door remotely (electronic strike plate not included), just by dialing a code on the telephone (except V-2900).

#### FEATURES

- Transmit and receive volume controls
- Door-unlock activation
- Programmable security codes
- Indication of unauthorized entry
- Background music input with volume control
- Built-in ring generator with on/off switch
- Compatible with all Valcom talk-back and one-way speakers

# Valcom Paging

- Programmable options include:
  - Door-unlock codes
  - Number of ringing cycles before door request is terminated
  - Program access code
  - Time (in seconds) the activated door lock remains unlocked
  - Distinctive ring patterns
- Requires additional power (VP-624B or larger power supply)

Anixter No.	Vendor No.	Description
121841	V-2901A	One-zone door answering device
121842	V-2900	One-zone basic door answering device
204630	V-2904	Enhanced four-zone door answering device

## FM Tuner

VALCOM INC

### FEATURES

- Built-in speaker prevents the need for tuning over the speaker system
- Two separate outputs and volume controls for music on hold, background music
- Treble and bass controls
- Dipole antenna included
- An "I" connector for use with an external coaxial antenna

Anixter No.	Vendor No.	Description
168941	V-2952	FM tuner

## Messenger USB Digital Messaging System

VALCOM INC

Valcom's Messenger USB is a state-of-the-art digital audio playback device designed to provide a continuous-play audio source for message-on-hold, background music, or any other audio application where high-quality audio playback is required. Messages are stored on industry-standard USB flash drives from 16 MB up to 4 GB. The Messenger USB is capable of MP3 file playback from 8 kbps all the way up to full CD-quality audio playback of 128 kbps.

### FEATURES

- Plays MP3 files from USB flash drive
- Up to 4 GB flash drives supported

- No drivers or special software needed
- Playback quality up to 128 kbps
- Continuous playback
- Built-in monitor speaker
- LED status indicator

Anixter No.	Vendor No.	Description
333605	V-9988	Messenger USB Digital Messaging System

## Multi-tone Generator

VALCOM INC

Adds tones over the paging system for evacuation, night ring, doorbells and other tone notifications needed.

### FEATURES

- Chime, slow whoop, warble, pulsed up to 16 available tones
- Tones activated by individual dry-contact closure up to eight at a time
- Automatically interrupts page or music during tone interval
- Provides standard immediate evacuation signals

Anixter No.	Vendor No.	Description
129251	V-9927A	Multi-tone generator

## Page Control Interfaces with Built-in Power, 2000 Series

VALCOM INC

### FEATURES

- Provides one to six zones of hands-free talk-back and/or one-way paging
- Interfaces with telephone system via a loop-start/ground-start C.O. line position
- Page override input
- Programmable features per zone: background music, tones and talk-back
- Multiple units can be interconnected for a common All-Call
- Supports two talk-back speakers per talk-back zone
- Volume controls for background music, tones, All-Call and transmit/receive
- May be accessed from a dedicated single-line telephone set
- Standard 66 blocks used for connections
- One-way All-Call

424850	V9910-YEL	Doorbox weather guard, yellow

## Talk-back Intercom System - Expandable

VALCOM INC

An innovative, new, expandable talk-back intercom system designed specifically for providing sophisticated communications solutions for schools, assisted-living facilities, auto dealerships, medical clinics and warehouses.

#### FEATURES

- Expandable up to 96 stations with expansion units
- Hands-free talk-back
- Compatible with PBX, key systems or standalone telephone sets
- Caller identification
- One-way group call and All-Call
- Talk-back "meet me" and "follow me" capabilities
- Background music input
- Emergency override
- Door-unlock capabilities
- Time clock/emergency tones
- Accessed by loop-start trunk port or dedicated single-line set
- Built-in one-way and hands-free amplifiers with volume controls
- SMDR printer port
- Riot mode

Anixter No.	Vendor No.	Description
254315	V-2924A	24-station talk-back intercom system
254316	V-2925A	Expansion unit - 24-station increments

#### OPTION CARD - ENHANCEMENTS AVAILABLE FOR V-2924A SYSTEM

Enhanced Caller ID, user-defined page groups, flexible architectural numbering plan, PC-compatible programming port with Windows 95/98- or NT-based programming tool, system clock, secondary serial port

Anixter No.	Vendor No.	Description
194309	V-2926	Option card - remote programming
268917	V-2928	Option card - time event scheduler

**In-wall Mixers**

VALCOM INC

Valcom's In-Wall Mixer is a complete sound system that blends with today's modern décor. Each mixer provides two auxiliary inputs and one balanced microphone input. Auxiliary inputs can be used for music or program sources, PC audio or wireless microphones and easily mounts in a 4-gang electrical box with decorative white faceplate. An additional audio input (building page) easily adapts the in-room speakers to the building's existing paging system. An override feature allows building announcements priority over individual room activities.

**FEATURES**

- Contemporary styling to match today's offices, conference rooms and restaurant environments
- A master volume control is provided for final level adjustments
- An eight segment LED meter provides instant visual indication of audio signal levels
- The building page input overrides all other sources (voice operated, switch enabled)
- Full frequency range output for speakers and modified output for horn loads
- Built-in compressor (option switch controlled) evens out loud and quiet inputs
- Operates on 24 V DC requiring one Valcom power unit

Anixter No.	Vendor No.	Description
340076	V-9985-W	In-wall mixer
340078	V-9984-W	Remote input module
340080	V-9983-W	In-wall main control module

**Ambient-level Controller**

VALCOM INC

The ambient-level controller uses its internal microprocessor via microphone input to sense ambient noise and optimizes the paging level to its surroundings.

**FEATURES**

- Ideal for areas where noise levels frequently change
- Permits automatic, manual or remote control of sound system levels
- Microphone may be placed up to 5,000 ft. from the unit

Anixter No.	Vendor No.	Description
215782	V-5335621	Ambient-level controller

**PagePac Call Stacker**

VALCOM INC

Eliminates busy signals on heavily used systems and prevents acoustic feedback.

**FEATURES**

- Eliminates feedback by opening loop between paging device and speakers
- Enables the system to accept up to five simultaneous pages, store them and play them back in sequence
- Emergency messages can interrupt playback sequence
- Interrupted message will play in full once the emergency message has completed. (Note: must be used with PagePac Plus System.)
- Provides prompts in English, Spanish or both languages
- Access via analog station ports or central office lines

Anixter No.	Vendor No.	Description
215770	V-5325150	PagePac Call Stacker

**Desktop Speakers**

VALCOM INC

These desktop speakers are small, lightweight and designed to communicate within relatively small areas.

**FEATURES**

- PagePac by Valcom Inc.
- Excellent private office intercom
- Covers 250 sq ft.
- Can be wall mounted
- Use for voice announce on busy with your phone system
- May be used for one-way or talk-back
- Privacy switch (70 V only)

Anixter No.	Vendor No.	Description
151074	V-5330210	70 V desktop speaker

Voice Products

# Valcom Paging

**PagePort PreAmp/Expander**

VALCOM INC

**FEATURES**

- A master volume control for an entire system or groups of remote speakers
- Virtually unlimited expansion
- Pre-amplifies low-level audio to remote sites
- Isolates paging port from speaker lines

Anixter No.	Vendor No.	Description
121867	V-1094A	Master volume control

**70 V Expander**

VALCOM INC

Provides unlimited expansion of 25/70/100 V systems without straining existing amplifier.

**FEATURES**

- Easily connects to the amplifier output or anywhere on the 70 V line
- Provides a master volume control for added speakers

Anixter No.	Vendor No.	Description
194306	V-1095	70 V expander

**70 V Attenuators**

VALCOM INC

This attenuator allows volume adjustment of 70 V speakers and horns. Accommodates up to 35 W of speaker load.

Anixter No.	Vendor No.	Description
151091	V-5335005A	70 V attenuator

**Voice Coil Attenuator (3 W)**

VALCOM INC

Controls the volume of voice coil speakers and horns.

**FEATURES**

- PagePac by Valcom Inc.

Anixter No.	Vendor No.	Description
272272	V-5335010A	Voice coil attenuator 3 W

Voice Coil Door Speaker

VALCOM INC

Know who is at your door with these talk-back DoorPhone speakers.

**FEATURES**

- Push-button on the DoorPhone with a speaker for signaling
- Stainless steel faceplate and tamperproof screws
- Weather-resistant enclosure for indoor or outdoor use
- Can be mounted to any surface or flush-mounted

Anixter No.	Vendor No.	Description
151068	V-5330120	Voice coil door speaker
230924	V-5330230	70 V door speaker

Universal DoorPhone Controller

VALCOM INC

Allows the user to remotely control locking and unlocking of premise doors.

**FEATURES**

- Provides voice communication between your telephone system and the DoorPhone speaker
- Controls remote door unlocking (with optional customer-supplied and customer-installed electromechanical door lock)
- Interfaces the DoorPhone speaker with an extra alert
- Volume control for speaker and talk-back
- May be used with central office lines or station ports and has ability to dial up to 16-digit telephone numbers

Anixter No.	Vendor No.	Description
216828	V-5324001	Universal DoorPhone controller

PagePac Station DoorPhone

VALCOM INC

Allows the user to control access and communicate with people at a premise door.

**FEATURES**

- Designed specifically for PARTNER Plus System
- Provides visible feedback to your visitor via a green LED that confirms the DoorPhone is activated
- Rings different extensions
- Requires no external power to operate
- Weather-resistant, tamperproof, ideal for indoor/outdoor use

Anixter No.	Vendor No.	Description
316866	V-5324004	PagePac Station DoorPhone

PagePac 6

VALCOM INC

Page your personnel with the PagePac 6.

**FEATURES**

- Provides a 6 W, compact, single-zone, one-way paging system, with an amplifier that provides 3.4 V of output
- Best suited for small businesses with quiet-to-moderate sound levels
- Useful in small- to medium-sized offices (up to 9,000 sq ft.) and warehouse or manufacturing applications up to 12,000 sq ft.
- Background music input available
- Provides page port/aux port access
- Power supply included
- Recommended for up to 18 voice coil speakers or six 1 W voice coil horns

Anixter No.	Vendor No.	Description
230909	V-5323006	PagePac 6

## Voice Products

## Valcom Paging

## PagePac 6 Plus

VALCOM INC

Like PagePac 6, PagePac 6 Plus features a highly affordable, compact, 6 W paging amplifier and is intended for use in small- to medium-sized office and warehouse environments. PagePac 6 Plus is a versatile system that offers a full three zones of paging, plus the highly desirable talk-back capability (two-way, hands-free communication via system speakers).

## FEATURES

- Provides a highly affordable, compact, three-zone paging system plus group and All-Call, with a 6 W paging amplifier
- Useful in small- to medium-sized offices (up to 9,000 sq ft.) and warehouse or manufacturing applications (up to 12,000 sq ft.)
- Supports up to two separate analog station paging lines and includes this port saver feature as standard
- Provides talk-back capability and programmable background music
- Provides three built-in, 2 W, voice coil amplifiers (one per zone)
- Recommended for up to 18 voice coil speakers (six per zone), or up to two 1 W voice coil horns per zone

Anixter No.	Vendor No.	Description
171646	V-5323008	6 W paging amplifier

## PagePac Plus D-Series AmpliCenters

VALCOM INC

The PagePac Plus D-series AmpliCenter is the core of the PagePac Plus paging system. It can function as a standalone, single-zone paging system, or when coupled with a PagePac Controller, it can drive larger, more sophisticated, multizone systems. The PagePac Plus AmpliCenter is optimally designed for convenient, direct access and simplicity of operation using your own telephone system. The system automatically modifies voice level for maximum clarity and consistent, pleasant paging.

## FEATURES

- Standalone or PagePac Plus Controller access
- Provides digital technology and remote amplifier output
- Provides overload protection and automatic reset

- Provides automatic voice-level adjustment for all pages
- Background/foreground music volume adjustment
- LED displays to indicate power on/off status and aid in system troubleshooting
- Remote amplifier output
- Wall, rack or cabinet mounting

Anixter No.	Vendor No.	Description
304817	V-5328040	40 W output
316865	V-5328100A	100 W output

## PagePac Plus Controller

VALCOM INC

The PagePac Plus Controller is the cornerstone of the PagePac Plus Paging System. It provides for the first eight zones (designated work areas) of paging required and also serves as the primary interface (hub) for all telephone system connections. Together with the PagePac AmpliCenter, the PagePac Plus Controller facilitates paging capabilities for businesses and multi-site plants of any size. It also accommodates off-premises paging zones. The PagePac Plus Controller coordinates building security by controlling outside doors and entrances to individual work areas. It also includes a built-in bell and alert tones.

## FEATURES

- Hands-free talk-back via system speakers
- System access passwords to restrict unauthorized usage (optional)
- Zone-specific, direct-dial/direct-page function with standard two-digit codes and user-assignable three- and four-digit codes
- Ability to interface with visual message centers
- System overload protection
- PC or DTMF telephone programmability
- Compatibility with all PBX, Key and Centrex telephone systems
- Provides "paging override" for priority announcements
- Seven alert tones - programmable
- Up to eight programmable zones and zone groups
- Expandable to 56 zones of one-way or talk-back paging

Anixter No.	Vendor No.	Description
151102	V-5323100	Controller
171642	V-5323105	PagePac programming software

# Valcom Paging

## PagePac Plus Zone Expansion Unit

VALCOM INC

The PagePac Plus Zone Expansion Unit enables a paging system to significantly expand its messaging capabilities. The PagePac Plus Zone Expansion Unit connects to the PagePac Plus Controller and provides 16 additional paging zones. Up to three expansion units can be attached to a single controller for a maximum of 56 paging zones per system. All zones can be optioned for hands-free talk-back with a 70 V output or may be utilized as input/output contact closures.

Anixter No.	Vendor No.	Description
151096	V-5335100	Expansion unit

## PagePal Interface

VALCOM INC

The PagePal Interface connects any other paging system to your telephone system. This unit features attendant override, allowing direct access from the attendant console or desktop microphone.

### FEATURES

- Provides access to your paging system via an analog station, loop- or ground-start trunk and dry-loop (telephone system page port)
- Provides attendant override which allows direct access from the attendant or desktop microphone or page port with contact closure
- Includes tones for night bell, call or page confirmation, alerts, page busy and pre-announcement
- Provides a music input
- Not recommended for talk-back

Anixter No.	Vendor No.	Description
151105	V-5335700	PagePal Interface

## PagePac Plus Controller PC Software

VALCOM INC

Provides easy programming from a computer instead of a telephone.

### FEATURES

- PagePac by Valcom Inc.
- Requires less than 640 K RAM, uses a 3.5-inch floppy
- Operates in character mode
- Supports monochrome and color monitors or LCDs
- Has ability to retain configuration indefinitely
- PC connects to an RS-232 on the controller with a null modem cable
- Operates on generic, DOS-based, IBM PC or compatible system

Anixter No.	Vendor No.	Description
171642	V-5323105	PagePac programming software

## Universal Bi-directional Speakers

VALCOM INC

Universal bi-directional speakers are capable of unidirectional or bi-directional signal dispersion thanks to special, innovative cabinet mounts. These speakers come in either voice coil or 70 V models and are normally used when recessed ceiling mounts are either not desirable or not possible. Each speaker comes housed in a handsome black cabinet with a black cloth grille.

Anixter No.	Vendor No.	Description
230915	V-5330105	Voice coil (rated at 0.25 W)
215775	V-5330205	70 V (adjustable from 0.125 to 2.5 W)

## Remote Amplifier Adapter

VALCOM INC

Expands the PagePac 6 and PagePac 6 Plus by allowing the addition of other amplifiers, both on-site and off-premises.

### FEATURES

- Reduces potential noise problems
- Avoids downstream amp overdrive by ensuring that the input voltage and impedance match the downstream amplifier

Anixter No.	Vendor No.	Description
274735	V-5335305	Remote amplifier adapter

## Digital Sound-level Meter

VALCOM INC

**FEATURES**

- Professional instrumentation
- Compact, newly designed shape
- High performance
- Easy max./min. function
- 32- to 130-dB/3 range
- Resolution, 0.1 dB
- IEC 651 type II
- 9 V battery included

Anixter No.	Vendor No.	Description
233552	V-9992	Digital sound-level meter

## Station-level Paging Adapter

VALCOM INC

**FEATURES**

- Full-featured paging with C.O. or Centrex lines
- Can combine with Valcom multizone or talk-back page control interfaces
- Requires 24 V DC/200 mA, filtered power supply

Anixter No.	Vendor No.	Description
121785	V-9940	Station-level paging adapter

## Speaker-mounting Hardware for 8 in. Ceiling Speakers

VALCOM INC

**FEATURES**

- Bridges and backboxes for use with 8 in. ceiling speakers

Anixter No.	Vendor No.	Description
185051	V-9914M	Bridge, metal
189069	V-9915M-5	Backbox, metal
183676	V-9916M	Bridge/backbox combination, metal

## Power Supplies

## Analog Clocks - Wired and Wireless

VALCOM INC

### FEATURES

- Valcom's quartz analog clocks are available in 12 in. or 16 in. round metal case with shatter-proof polycarbonate crystal
- Offers proven time-keeping accuracy and reliability

#### WIRED ANALOG CLOCKS

Anixter No.	Vendor No.	Description
339752	V-A2416	16 in. round, black, surface-mount, 24 V DC
339753	V-A11016	16 in. round, black, surface-mount, 110 V AC
339754	V-A2412	12 in. round, black, surface-mount, 24 V DC
339755	V-A11012	12 in. round, black, surface-mount, 110 V AC

#### OPTIONAL DRIVER

Anixter No.	Vendor No.	Description
339757	V-VCU	6 amp 2 wire clock driver

#### WIRELESS ANALOG CLOCKS AND REPEATER

Anixter No.	Vendor No.	Description
339758	V-AW2416	16 in. round, black, surface-mount, 24 V DC
339759	V-AW11016	16 in. round, black, surface-mount, 110 V AC
339760	V-AW16A	16 in. round, black, surface-mount, battery operated
339761	V-AW2412	12 in. round, black, surface-mount, 24 V DC
339762	V-AW12LP	12 in. round, black, surface-mount, 110 V AC
339763	V-AW12	12 in. round, black, surface-mount, battery operated
424852	V-AW12A-MD	12 in. round, black, surface-mount, military dial

#### SURFACE-MOUNT RINGS AND BRACKETS

Anixter No.	Vendor No.	Description
339764	V-SMR12	Surface-mount ring for 12 in. clock
339765	V-BDM12-4	Double-mount bracket for 12 in. clock
339766	V-UMB	Universal mounting bracket
339767	V-SMR16	16 surface-mount ring for 16 in. clock
339768	V-BDM16-4	16-4 double-mount bracket for 16 in. clock

#### CLOCK/SPEAKER BAFFLES

Anixter No.	Vendor No.	Description
339769	V-CSB12S	12 in. analog clock/8 in. speaker baffle
339770	V-CSBFB	Surface-mount backbox for V-CSB25 and/or V-CSB12S
339772	V-CSBRB	Recessed-mount backbox for V-CSB25 and/or V-CSB12S

#### WIRE GUARDS

Anixter No.	Vendor No.	Description
339773	V-WGA12	12 in. wire guard
339774	V-WGA16	16 in. wire guard

## Digital Clocks - Wired and Wireless

VALCOM INC

### FEATURES

- Available with 2.5 in. or 4.0 in. easy-to-read four digit display
- Each has a specially molded anti-glare bezel which gives the digital clock a smooth, clean look
- All digital clocks are available in either 24 V DC or 110 V AC

#### WIRED DIGITAL CLOCKS

Anixter No.	Vendor No.	Description
339775	V-D2425	2.5 in. 24 V DC digital
339776	V-D11025A	2.5 in. 110 V AC/24 V DC digital
339777	V-D2440	4.0 in. 24 V DC digital
339778	V-D11040A	4 in. 110 V AC/24 V DC digital
339757	V-VCU	6 amp 2 wire clock driver

#### WIRELESS DIGITAL CLOCKS

Anixter No.	Vendor No.	Description
339780	V-DW2425	2.5 in. 24 V DC digital
339781	V-DW11025	2.5 in. 110 V AC/24 V DC digital
339782	V-DW2440	4 in. 24 V DC digital
339783	V-DW11040	4 in. 110 V AC/24 V DC digital

#### HOUSING

Anixter No.	Vendor No.	Description
339784	V-SM25	Surface- (wall-) mount housing for 2.5 in. digital clock
339785	V-FM25	Flush-mount housing for 2.5 in. digital clock
339786	V-SM40	Surface- (wall-) mount housing for 4 in. digital clock
339787	V-FM40	Flush-mount housing for 4 in. digital clock

*(continued)* Digital Clocks - Wired and Wireless

## CLOCK/SPEAKER BAFFLES

Anixter No.	Vendor No.	Description
339788	V-CSB25	2.5 in. digital clock/8 in. speaker baffle
339770	V-CSBFB	Surface-mount backbox for V-CSB25 and/or V-CSB12S
339772	V-CSBRB	Recessed-mount backbox for V-CSB25 and/or V-CSB12S
339791	V-CDT	Chronograph timer control box
339792	V-WGD4	4 in. wire guard for use with the 2.5 in. and 4 in. digital clock
339769	V-CSB12S	12 in. analog clock/8 in. speaker baffle

## MOUNTING BRACKETS

Anixter No.	Vendor No.	Description
339793	V-DM25-4	Double-mount bracket for 2.5 in. digital clock
339794	V-DM40-4	Double-mount bracket for 4 in. digital clock

## MASTER CLOCKS AND REPEATER

Anixter No.	Vendor No.	Description
339795	V-WMCA	Series master clock transceiver for use with wireless clocks
339796	V-GPSA	Receiver for use with wireless clocks
339797	V-WMCRA	Wireless master clock repeater for use with wireless clocks

## IP Paging Products - Managed

VALCOM INC

## FEATURES

- Available in 1-, 2- and 4-channel models
- No server required
- Easy Windows-based setup
- Web-based configuration/setup
- One to 11 digit dial plans
- AUX audio input
- Can use DHCP servers to acquire IP addresses
- Contact closure available for audio indication and door unlocking
- Note: VIP-811, VIP-812 and VIP-814 also provide ringing indication contact

Anixter No.	Vendor No.	Description
316812	VIP-801	Networked page zone extender
316811	VIP-802	Dual networked page zone extender
316810	VIP-804	Quad networked page zone extender
316809	VIP-811	Enhanced networked station port
316808	VIP-812	Dual enhanced networked station port
316807	VIP-814	Quad networked station port

## IP Paging Products - Networked Trunk Port

VALCOM INC

## FEATURES

- Allows most loop start terminal devices to be connected to a managed IP-based LAN/WAN
- RJ45 for network connection
- Network activity LEDs
- Front panel activity LED
- 2.5 mm jack for DC
- 802.3af compliant

Anixter No.	Vendor No.	Description
316806	VIP-821	Enhanced networked trunk port
316805	VIP-822	Dual enhanced network trunk port
316804	VIP-824	Quad enhanced network trunk port

## SIP Wall Speakers

VALCOM INC

## FEATURES

- Sleek, modern design
- Excellent voice and music quality
- Gray with black grille
- Paintable housing
- Easy installation
- Built-in volume settings

Anixter No.	Vendor No.	Description
316815	VIP-410	IP wall speaker; one-way
370703	VIP-411-DS	IP surface-mount wall speaker, one-way, with digital clock

VALCOM INC

## FEATURES

- Enables voice access to one to four zones of one-way analog paging plus eight zones of IP paging
- Designed for use with virtually all SIP-based telephone systems
- Live or recorded messages
- Easily connects loudspeaker system to existing computer networks
- Support IP and analog amplified speakers
- Web interface for control and setup
- Support legacy paging systems

Anixter No.	Vendor No.	Description
370447	VIP-201	SIP-based paging gateway - one analog
370448	VIP-204	SIP-based paging gateway - four analog

## SIP Intercom/Doorplate Speakers

VALCOM INC

The hands-free talkback intercom with long-line extender and dial code operated relay are the perfect solution to implementing door phone or similar functions in with modern IP telephone systems.

### FEATURES

- Flush-mount
- Call button and LED
- Relay contact for door unlock

Anixter No.	Vendor No.	Description
370718	VIP-172L-BRASS	IP intercom - with long-line extender - brass
424935	VIP-172L-SS	IP intercom - with long-line extender, stainless steel
395837	VIP-172L-VRSS	IP intercom - vandal-resistant 11 AWG steel
424849	V9910-BK	Doorbox weather guard, black
424850	V9910-YEL	Doorbox weather guard, yellow

## Networked Relay and Input Module

VALCOM INC

### FEATURES

- Repeat contact closures
- Eight contact closure inputs (an input may control a single relay or a group of relays)
- Eight relay output supervision (a relay may be set to follow another relay)
- Power up relay state (active or inactive)
- Three input priority levels

Anixter No.	Vendor No.	Description
370721	VIP-848	Networked relay and input module

## Local Power Option for 800 Series

VALCOM INC

### FEATURES

- Receptacle-mount
- Unfiltered

Anixter No.	Vendor No.	Description
326238	VIP-324	.25 amp power supply

## Networking Systems/Video Products/Video Security Systems

VALCOM INC

IP PoE analog and digital clocks.

### FEATURES

- Easy to install via RJ45 connection
- Power over Ethernet (IEEE 802.3af)
- No master clock required - set automatically by NTP (Network Time Protocol)
- 10/100BASE-T Ethernet compatible
- DHCP or static IP addressable
- Industrial grade metal housing

Anixter No.	Vendor No.	Description
393610	VIP-A12	IP PoE 12 in. analog clock
424939	VIP-A12DS	IP PoE 12 in. double-sided analog clock

IP Talk-back Call Station

VALCOM INC

Allows communication to Valcom FXS units (VIP-811, -812, -814) and SIP-based telephone systems via a managed IP-based LAN/WAN.

Anixter No.	Vendor No.	Description
424938	VIP-9890-CB	IP talk-back call station, vandal-resistant, yellow

## Bogen Paging

## Free Application Design Service

## BOGEN

Bogen offers a free application design service to assist with the design of paging systems for any and every project encountered. It's fast, comprehensive and free. (Call 1-800-999-2809 (option 2) for more information or to send in a project.)

## FEATURES

- Speaker-placement design
- Complete bill of materials
- Scope of work
- Detailed assumptions
- Red-lined blueprints (blueprints must be supplied; AutoCAD blueprints accepted)

## NEAR A-Series Speakers

## BOGEN

NEAR A-Series speakers set the standard for smooth, accurate sound, attractive appearance and rugged construction. Designed to perform beautifully under the toughest conditions, the A-Series combines outstanding aesthetic design with NEAR speaker technology for unsurpassed audio quality and weatherproof durability. Available in black, green or white.

## FEATURES

- Magnetic liquid suspension
- Cast-aluminum basket
- Sealed magnet
- Advanced rubber compound
- Metal diaphragm technology

Anixter No.	Vendor No.	Description
236797	A2BLK	6 in. black, 4, 8, 16 W taps, 70 V

## NEAR Orbit Speakers

## BOGEN

The Orbit Ceiling Speaker (OCS1) is the ideal choice for various types of ceiling environments. The Orbit Pendant Speaker (OPS1) is the ideal choice for high ceiling and open-space environments. Both feature NEAR's MLS and MDT technologies, which improve sound quality and increase operating reliability. The low-distortion speaker design, featuring NEAR's spiderless driver and one-piece metal-alloy cone structure, delivers superb articulation and the highest intelligibility for both music and speech. The OCS1 can be easily installed on hard-surfaced ceilings or in suspended ceilings and new construction (with the optional TBCR bracket). The OPS1 comes in black or white.

## FEATURES

- Magnetic liquid suspension
- Stable, high-definition metal-alloy cone
- Sealed magnet
- Advanced rubber compound
- Metal diaphragm technology
- Wide-dispersion coaxial driver for broad, even coverage

Anixter No.	Vendor No.	Description
265143	OCS1	6 1/2 in. MDT metal-alloy cone, 70 V/100 V
265147	OPS1B	6 1/2 in. MDT metal-alloy cone, 70 V/100 V, black
265148	OPS1W	6 1/2 in. MDT metal-alloy cone, 70 V/100 V, white
268547	CK-10	10 ft. long cable kit, silver
301186	CK10B	10 ft. long cable kit, black
301187	CK10W	10 ft. long cable kit, white
265155	TBCR	Tile bridge and c-ring support ring

## Voice Products

## Bogen Paging

## Metal Box Speakers

BOGEN

The MB8TSQ and MB8TSL speakers feature an all-steel surface-mounted enclosure with an 8 in. cone loudspeaker and multi-tap 4-watt 70V/25V transformer. The MB8TSQ is suitable for ceiling or wall mounting. The MB8TSL is designed primarily for wall mounting and its face is angled downward by 12.5 degrees.

## FEATURES

- Rugged all-steel surface-mounted enclosure
- Full range 8 in. cone speaker for excellent intelligibility
- Compatible with 25 V or 70 V amplifier system
- Multiple taps at 4, 2, 1, 1/2, 1/4, 1/8 watts
- 4-watt maximum output power
- Mounting hardware included

Anixter No.	Vendor No.	Description
320127	MB8TSQ	8 in. cone surface-mounted speaker
320128	MB8TSL	8 in. cone surface-mounted speaker with angled front face

## Drop-in Ceiling Speaker

BOGEN

The Bogen Drop-in Ceiling Speaker is a full-range speaker that allows for fast and simple installation. No accessories or other hardware required for mounting. Just make one simple cut to the ceiling tile and drop the ceiling speaker in place.

## FEATURES

- Easy installation
- One-piece assembly
- 70 V multi-tap pot (25 V)

Anixter No.	Vendor No.	Description
273174	CSD1X2	Drop-in ceiling speaker, 1 ft. x 2 ft., integrated support rail
287226	CSD2X2	Drop-in ceiling speaker, 2 ft. x 2 ft., includes support bar

## Ceiling Speakers

BOGEN

The Bogen CS1EZ is a preassembled ceiling speaker comprised of an 8 in. cone speaker and steel ceiling grille painted with white enamel. The CS1EZ includes a volume control knob and rear-mounted screw terminal board for easier electrical connections.

## FEATURES

- 1 W single-tap design
- Screw terminal connections for fast installation
- Designed for 70 V amplifier output
- 8 in. cone speaker for excellent audio quality

Anixter No.	Vendor No.	Description
241350	CS1EZ	1 W, volume control, easy design (not quick install)
394172	C-SUB	Ceiling subwoofer

## Easy Install Ceiling Speakers

BOGEN

The Easy Install Speakers (SM1EZ and SM4T) drastically cut system installation time because each speaker can be completely installed, mounted in the ceiling, secured and connected in less than a minute.

The speakers can be installed in any drop ceiling with ceiling tiles quickly, easily and trouble-free and carry voice messages with clarity where dependable communication is required.

## FEATURES

- Installs in seconds
- No tool installation
- Contemporary, low-profile design
- No cleanup

Anixter No.	Vendor No.	Description
234464	SM1EZ	9.5 in. speaker with single tap, 1 W, easy install
241348	SM4T	9.5 in. speaker with multiple taps, 4 W, easy install
249355	SMTB	Tile bridge

### High-fidelity Ceiling Speaker

BOGEN

The Bogen HFCS1 ceiling loudspeaker delivers superior sound and clear intelligibility in a variety of ceiling environments. The system can be easily installed in hard-surfaced ceilings, suspended ceilings and new construction. The HFCS1 offers several levels of power output via a front-mounted rotary switch. The low-distortion speaker design, coupled with dual front exit ports, delivers high intelligibility and exceptional low-frequency response for both music and speech reinforcement.

#### FEATURES

- Wide-dispersion coaxial driver for broad, even coverage
- Good off-axis response with smooth contouring
- Computer-matched venting system for full bass output
- Large back can for deep bass response
- Power taps (in watts) - 32, 16, 8, 4, 2 and 1
- Compounded rubber surround for lasting performance

Anixter No.	Vendor No.	Description
268554	HFCS1	6 1/2 in. PolyCone, 70 V/100 V
268547	CK-10	10 ft. long cable kit, silver
301186	CK10B	10 ft. long cable kit, black
301187	CK10W	10 ft. long cable kit, white
265155	TBCR	Tile bridge and c-ring support ring

### Amplified Drop-in Ceiling Speaker

BOGEN

Bogen's ACD2X2 2 ft. x 2 ft. Amplified Drop-in Ceiling Speaker is a full-range speaker that allows for fast and simple installation. No accessories or other hardware required for mounting.

#### FEATURES

- Quick and easy to install; wire and drop in place
- 2 ft. x 2 ft. design fits in 2 ft. x 2 ft. and 2 ft. x 4 ft. ceiling grids
- Finely perforated grille over entire front of speaker panel
- 8 in. main cone speaker
- Self-contained 1 W amplifier
- Front-mounted volume control
- Support rail for 2 ft. x 4 ft. ceilings included

Anixter No.	Vendor No.	Description
304673	ACD2X2	Amplified drop-in ceiling speaker, 2 ft. x 2 ft.

### Amplified Loudspeakers

BOGEN

An 8 in. cone speaker with compact IC amplifier and volume control, 1 W output; operates on 24 V DC.

Anixter No.	Vendor No.	Description
301250	ASWG1DK	AS1 with ceiling grille, white, detachable knob, 50 mA
106153	ASWG1	AS1 with ceiling grille, white, fixed knob, 50 mA

### Foreground Speakers

BOGEN

The Bogen FG Series of foreground speakers are designed to complement sophisticated music systems. Their wide bandwidth provides the performance demanded by customers while their quality construction provides the reliability installers can count on. The FG Series is available in a variety of physical size and performance models to meet the needs of a wide range of distributed music applications.

#### FEATURES

- Three models
- Smooth, wide-frequency response for music or voice
- Compact, rugged plastic enclosures
- Individually sweep-tone tested to ensure reliability
- Mounting brackets included
- Black swivel mount available for FG20 and FG30 (not included)

Anixter No.	Vendor No.	Description
287439	FG15B	15 W foreground speaker, black finish
247849	FG15W	15 W foreground speaker, white finish
287458	FG20S	Splashproof 20 W foreground speaker, black
287456	FG30	30 W foreground speaker, black
301252	FGSM	Swivel mount for FG Series, black
301254	FGSMW	Swivel mount for FG Series, white

### Vandal-resistant Speakers

BOGEN

The Bogen VRS1 and VRS2 are vandal-resistant speakers designed for hands-free two-way communications.

#### FEATURES

- Heavy-duty vandal-resistant and weather-resistant construction
- 8 ohms or 25 V (1/2 W) operation
- Call-in switch on VRS1 can be wired for "momentary" or "latching" operation
- One-way security hardware included

Anixter No.	Vendor No.	Description
241362	VRS1	Vandal-resistant speaker, transformer, call-in switch
241363	VRS2	Vandal-resistant speaker with transformer

### Speakers - 8 in. Transformer - 25/70 V

BOGEN

Bogen's 8 in. cone speakers are available preassembled onto a steel ceiling grille painted with white enamel. Options for these assemblies are recessed volume control, volume control with knobs and rear-mounted screw terminal strip for power taps.

#### FEATURES

- 8 in. cone speaker for excellent audio quality
- Six different power taps
- Preassembled for faster installation
- White enamel over steel grille

Anixter No.	Vendor No.	Description
241356	S810	10-oz magnet
241354	S86	6-oz magnet
241358	T72510	Speaker-matching transformers: 10, 5, 2 1/2, 1 1/4, 5/8 W taps
241357	T725	Speaker-matching transformers: 4, 2, 1, 1/2, 1/4, 1/8 W taps

### Mounting Hardware for Ceiling Speakers

BOGEN

Bogen offers a variety of accessories to assist in mounting various ceiling speakers.

Anixter No.	Vendor No.	Description
117800	TB8	Tile bridge
123495	RE84	Ceiling speaker enclosure
241357	T725	Speaker-matching transformers: 4, 2, 1, 1/2, 1/4, 1/8 W taps
241358	T72510	Speaker-matching transformers: 10, 5, 2 1/2, 1 1/4, 5/8 W taps
247850	MR8	Mounting ring

### Ceiling Grilles for 8 in. Speakers

BOGEN

Bogen provides a wide selection of attractive ceiling grilles in white enamel or aluminum finishes. Each grille is shipped with the hardware needed to mount a speaker to the grille.

#### FEATURES

- Accommodates 8 in. speaker

Anixter No.	Vendor No.	Description
241369	CG8A	Round aluminum grille, contoured
241370	CG8AW	Round aluminum grille, white finish, contoured
241371	PG8A	Round aluminum grille
241372	PG8W	Round steel grille, white finish
241373	SG8W	Round steel grille, with hidden studs

### S86 Loudspeaker Assemblies

BOGEN

Bogen's metal ceiling grilles are sturdy, handsome and economical. They accommodate an 8 in. speaker. Supplied with complete hardware.

Anixter No.	Vendor No.	Description
101728	S86T725PG8W	S86T725 on PG8W grille
103535	S86T725PG8WVK	S86T725PG8W with knob volume control

### WB8 Wall Baffle

BOGEN

Bogen's wall baffle is ruggedly constructed of 3/8 in. particle board with reinforced corners. It is finished in simulated walnut and will house any of Bogen's 8 in. speakers. A sloping front panel provides enhanced downward dispersion. Hardware for mounting a speaker to the baffle included.

#### FEATURES

- Ruggedly constructed
- Accommodates 8 in. speaker

Anixter No.	Vendor No.	Description
241374	WB8	Wall baffle, walnut finish

### Wall Baffle

BOGEN

Model WBS8 wall baffle is ruggedly constructed of 3/8 in. particle board, attractively covered in simulated walnut vinyl, with black grille cloth. Assemblies include cone speaker, transformer and baffle; ready to install.

Anixter No.	Vendor No.	Description
107331	WBS8T725	S86T725 in WB8 baffle
103571	WBS8T725V	WBS8T725 with volume control

### Sound Columns

BOGEN

The Bogen SCW20 and SCW35 models are heavy-duty sound columns designed for sound reinforcement in churches, theaters, auditoriums and similar installations where it is necessary to cover a large area with a minimum of speakers.

#### FEATURES

- Precisely controlled sound projection
- Directional characteristics reduce feedback
- Uniform sound level throughout area covered
- Clarity and intelligibility of speech reproduction
- Lower power requirements than conventional speakers
- Fast and simple installation

Anixter No.	Vendor No.	Description
241367	SCW20	20 W sound column
241368	SCW35	35 W sound column

### Paging Horns

BOGEN

The Bogen horn loudspeakers are compact, high-intelligibility, re-entrant-type loudspeakers, designed for one-way or two-way sound and communications systems.

#### FEATURES

- High intelligibility and efficiency
- Weatherproof and metal construction
- 25/70 V or 8-ohms operation

Anixter No.	Vendor No.	Description
107322	BDT30A	30 W horn, bi-directional
241364	SP58A	7.5 W paging speaker
107324	SPT5A	7.5 W paging speaker
241365	SP158A	15 W horn, 8 ohms
103534	SPT15A	15 W horn with transformer
107323	SPT30A	30 W horn with transformer
241366	SP308A	30 W horn, 8 ohms
320129	KFLDS30T	30 W horn, wide dispersion

### Amplified Horns

BOGEN

Amplified horns are appropriate for noisy or outdoor locations. Equipped with mounting bracket. Operates on 24 V DC.

Anixter No.	Vendor No.	Description
103570	AH5A	5 W
107318	AH15A	15 W
103538	PRASAC	24 V DC, 450 mA power supply
241332	PRS624DA	24 V DC, 4 A power supply

### Digital Switching Amplified Horns

BOGEN

The SAH5 and SAH15 horn loudspeakers employ digital switching amplifier technology resulting in unprecedented low DC current draw and heat dissipation. This means fewer power supplies, longer cable runs and the capacity to work at higher ambient temperatures than conventional analog amplified horn speakers.

#### FEATURES

- 5 W, 15 W and 30 W models
- High-efficiency digital switching amplifier technology
- Low DC current draw and heat dissipation
- Unique flare shape provides controlled sound dispersion
- Operates with continuous background music and at high ambient temperatures
- Rotatable horn for vertical or horizontal dispersion
- Cast-aluminum swivel mount

Anixter No.	Vendor No.	Description
304671	SAH5	High-efficiency, digital switching, amplified horn, 5 W
304672	SAH15	High-efficiency, digital switching, amplified horn, 15 W
339076	SAH30	High-efficiency, digital switching, amplified horn, 30 W

### Easy Design Horn Loudspeakers

BOGEN

The Bogen Easy Design line of horn loudspeakers is made of weatherproof all-metal construction, thereby making them ideal for both indoor and outdoor use in industrial plants, warehouses, schools, construction sites and recreational areas. All models come with swivel- and tilt-mounting bases for greater flexibility in setting the angle projection.

#### FEATURES

- 7 W, 15 W and 30 W models
- Single-tap design
- Designed for 70 V amplifier outputs
- Weatherproof design

Anixter No.	Vendor No.	Description
241351	HS7EZ	7 W horn loudspeaker
241352	HS15EZ	15 W horn loudspeaker
241353	HS30EZ	30 W horn loudspeaker

### General Purpose Amplifiers

BOGEN

This Bogen amplifier is a rugged, compact unit designed to meet the requirements of continuous low-power audio applications.

#### FEATURES

- Ideal for music on hold/line amplifier
- Compact
- UL Listed

Anixter No.	Vendor No.	Description
235690	GA6A	6 W amp
235689	GA2	1.5 W amp

## Power Vector Amplifiers

BOGEN

Bogen's Power Vector modular input amplifier series offers a wide range of power to choose from, with five models ranging from 35 W to 250 W. The amplifiers are designed to work with both high- (70/25 V) and low-impedance (4/8 ohm) speaker systems. Each model includes eight module bays for input modules and allows up to four levels of priority between modules. Two module bays are also capable of accepting signal processing output modules.

### FEATURES

- 35 W, 60 W, 100 W, 150 W and 250 W models
- Modular input amplifiers
- Accepts eight plug-in modules (advanced input and signal-processing output modules)
- 8 ohms, 25 V and 70 V outputs
- Separate volume control for each input channel plus master volume control, bass and treble
- 11-segment LED output level meter
- Output limiter control

Anixter No.	Vendor No.	Description
268513	V250	250 W amp
268514	V150	150 W amp
268515	V100	100 W amp
268516	V60	60 W amp
268518	V35	35 W amp
268519	RPK87	Rack-mount kit
268520	RVCP	Remote volume control panel
268521	PVSC	Power vector security cover

## Wall-mount Power Vector Amplifiers

BOGEN

Bogen's Wall-mount Power Vector modular input amplifier series offers a wide range of power to choose from, with three models ranging from 100 W to 250 W. The

amplifiers are designed to work with both high- (70/25 V) and low-impedance (4/8 ohm) speaker systems. Each model includes eight module bays for input modules and allows up to four levels of priority between modules. Two module bays are also capable of accepting signal processing output modules.

### FEATURES

- 100 W, 150 W and 250 W models
- Modular input amplifiers
- 8 ohms, 25 V and 70 V outputs
- Accepts eight plug-in modules (advanced input and signal-processing output modules)
- Inconspicuous permanent wall-mounting (in-wall or surface-mount)
- Separate volume control for each input channel plus master volume control, bass and treble
- 11-segment LED output level meter
- Output limiter control

Anixter No.	Vendor No.	Description
268505	WV100	100 W amp
268506	WV150	150 W amp
268507	WV250	250 W amp
235703	BBS	Backbox for surface mounting
235702	BBF	Backbox for flush mounting
235704	WMAD	Door for wall-mount power vector amps

## Power Amplifiers

BOGEN

Bogen solid-state power amplifiers have been designed to fulfill the power amplification requirements of professional and commercial sound systems. Total harmonic distortion is less than 2 percent at rated output from 50 Hz to 15 kHz (MT250D and BPA60 models) or from 20 Hz to 20 kHz (HTA models).

### FEATURES

- Distortion less than 2 percent THD
- Transient protection diodes
- Frequency response -2 dB from 20 Hz to 20 kHz
- Multiple output voltage/impedances available
- UL Listed

Anixter No.	Vendor No.	Description
235688	MT250D	250 W amp
235687	HTA250A	250 W amp
235686	HTA125A	125 W amp
235685	BPA60	60 W amp
273237	RPK53	Rack panel kit for BPA60

## Voice Products

# Bogen Paging

### M-Class Amplifiers

BOGEN

The Bogen M-Class amplifier delivers on what professional sound installers need most: flexibility, power and reliability. Power: up to 600 W per channel stereo or 1,200 W of 70 V mono power. Reliability: massive power toroid and heat sinks, heavy 14-gauge chassis, back-slope AC voltage stabilization, clip limiters, DC voltage over-current, and thermal protection circuits. Three operating modes: stereo, 70 V mono, dual mono.

#### FEATURES

- Three operating modes: stereo, 70 V mono, dual mono
- Three mono power levels: 600 W, 900 W or 1,200 W for 70 V speaker systems
- Three stereo power levels: 300 W, 450 W or 600 W

Anixter No.	Vendor No.	Description
235630	M600	600 W amp
235629	M450	450 W amp
235627	M300	300 W amp
268508	RPK86	Rear rack-mount kit

### Gold Seal Series Amplifiers

BOGEN

The Gold Seal Series amplifiers are designed to meet the rigorous requirements of today's sophisticated sound systems. They combine unique and useable features with ultra-high reliability and professional performance. The amplifiers are available in 35 W, 60 W, 100 W, 150 W and 250 W models, each with exactly the same features to provide power and performance no matter how large or small the application.

#### FEATURES

- Dual-function, 10-band graphic equalizer
- Four dedicated microphone inputs
- 4 ohms direct aux input
- 8 ohm, 25 V, 25 V CT, and 70 V transformer coupled outputs
- Two rack spaces

Anixter No.	Vendor No.	Description
235635	GS35	35 W amp
235667	GS60	60 W amp
235668	GS100	100 W amp

Anixter No.	Vendor No.	Description
235669	GS150	150 W amp
235670	GS250	250 W amp
235671	GSRVC	Remote volume control for GS amps
235672	GSTRC	Security cover for GS amps

### Black Max Amplifiers

BOGEN

Bogen's Black Max amplifiers are designed to provide maximum performance in constant voltage speaker systems. Dual 70 V transformerless outputs deliver exceptionally clean audio to speaker systems requiring two channels of audio up to 600 W per channel. Built-in power sequencing for multiple Black Max amplifiers combats current in-rush problems of large audio systems.

#### FEATURES

- Dual 70 V amplifier channels
- 300 W, 450 W or 600 W per channel for 70 V speaker systems
- Built-in power sequencing of other Black Max amplifiers

Anixter No.	Vendor No.	Description
268538	X600	600 W amp
268539	X450	450 W amp
268541	X300	300 W amp
268508	RPK86	Rear rack-mount kit

### Talk-back Amplifier

BOGEN

The TBA15 is a unique amplifier that permits loudspeakers to be used as microphones to provide hands-free, two-way conversations through the paging system. In the idle state, the TBA15 uses the attached speakers as microphones and feeds this signal out to a telephone line. When the TBA15 senses a paging signal on the telephone line, it will switch on its 15 W amplifier and use the speakers conventionally.

#### FEATURES

- Hands-free two-way conversations through the paging system
- 15 W of speaker power
- Works on 25 V and 70 V speaker systems

# Bogen Paging

- Wall- or 19 in. rack-mount
- Talk-back and page volume controls

Anixter No.	Vendor No.	Description
235725	TBA15	Talk-back amp, 15 watt

## Classic Series Mixer Amplifiers

BOGEN

The Classic Series amps are mixer amplifiers intended for a variety of application sizes.

### FEATURES

- 10 W, 20 W, 35 W, 60 W and 100 W models
- Balanced low-impedance microphone inputs; high-impedance auxiliary input
- Microphone precedence over aux 2 input with customer-supplied switch
- Selector switch permits 2 mic/1 aux or 1 mic/2 aux operation
- Provision to drive tape recorder, booster amplifier, 500/600 W telephone line
- UL and CSA Listed

Anixter No.	Vendor No.	Description
235673	C10	10 W amp
235674	C20	20 W amp
235678	C10MOH	10 W amp/1 W MOH
235679	C20MOH	20 W amp/1 W MOH
078310	C35	35 W amp
198438	C60	60 W amp
068202	C100	100 W amp
273232	RPK35B	Rack panel kit for C10 (MOH) and C20 (MOH)
198437	RPK50	Rack panel kit for C35, C60 and C100
273233	WMK1	In-wall mounting kit for C10 (MOH) and C20 (MOH)

## Mixer/Pre-amplifier

BOGEN

### FEATURES

- Active mixer
- Supplies mic-level and high-level outputs
- Separate volume controls for each input channel plus master controls
- Ideal for multiple-microphone public address applications
- Multiple units may be interconnected for more mic inputs

Anixter No.	Vendor No.	Description
235734	CAM2	Mixer/pre-amplifier, five inputs
235733	CAM8PRO	Two-channel, mic-mixer, with compressor/limiter, eight inputs
235732	CAM8	Two-channel, mic-mixer, eight inputs

## ProMatrix Digitally Matrixed

BOGEN

The ProMatrix Digital Matrixed amplifier is the first of its kind to incorporate three independent amplifier channels with a unique digital interface, providing the ideal solution for restaurant, lounge/bar hotel, factory or similar facilities where multiple program and paging inputs need to be distributed to separate areas and automatically switched.

### FEATURES

- Three independent amplifier channels rated 20, 60 and 100 W
- Two Lo-Z balanced mic inputs and four aux inputs
- Provision for telephone paging
- Flexible priority assignments for each input on each amplifier channel
- Automatic switching of inputs based on input activity
- Password-protected programming mode
- Wireless remote control

Anixter No.	Vendor No.	Description
235633	PM3000	Three-channel digital control pre-amp
235631	PM3180	Digital matrixed amplifier
235634	RMPWMK3	Remote mounting panel kit for front panel
273239	RPK79	Rack-mounting kit

# Bogen Paging

### Professional Boundary and Overhead Hanging Microphones

BOGEN

The SCU250 is a boundary microphone. This electret condenser model features a heavy copper case with a matte black finish; mounting keyways for hanging or for attachment to the mounting surface; a cardioid pickup pattern; an extra-wide frequency response of 20 Hz to 18 kHz; a maximum SPL limit of > 130 dB; a 26 ft. cable terminated by a detachable XLR connector with internal pre-amp and phantom power supply unit adapter; a 250-ohm impedance; and a sensitivity of -68 dB V at 74 dB SPL.

The WCU250 is an overhead electret condenser microphone perfect for picking up large groups such as choirs and orchestras. The WCU250 has a frequency response of 50 Hz to 18 kHz; a maximum SPL limit of > 130 dB; a high-tensile cable with mini-XLR output plug and mini-XLR to XLR adapter; and a matte black finish.

Anixter No.	Vendor No.	Description
241423	SCU250	Boundary, condenser, unidirectional
268522	WCU250	Overhead hanging choir, condenser, unidirectional

### Desktop Microphones

BOGEN

High-quality compact desktop microphone for sound reinforcement applications. Cuts through noisy backgrounds of live-miking situations and large gatherings.

#### FEATURES

- Desktop microphone
- Push-to-talk
- Lock

Anixter No.	Vendor No.	Description
235767	MBS1000A	Omnidirectional, push-talk/lock
235766	DDU250	Unidirectional, push-talk/lock

### Gooseneck Microphones

BOGEN

The GCU250, GDU150 and MGN19 are gooseneck models. The GCU250 is an electret condenser microphone featuring a slim, semirigid, adjustable, 18 in. gooseneck body length with an integral XLR mounting base; a cardioid pickup pattern; a wide frequency response range of 50 Hz to 18 kHz; a maximum SPL limit of > 130 dB; a 250-ohm impedance; and a sensitivity of -68 dB V at 74 dB SPL. The GDU150 is a dynamic microphone featuring a 16 in. long flexible gooseneck body with an integral XLR mounting base; a cardioid pickup pattern; a push-on/push-off talk switch; a 500-ohm impedance; and a sensitivity of -75 dB V at 74 dB SPL. The MGN19 is extremely reliable and durable. It features 7 ft. of four-conductor, two-shielded, permanently attached, synthetic jacketed cable, and a DPDT push-to-talk button-operated sealed microswitch mounted on the microphone housing.

Anixter No.	Vendor No.	Description
268524	GCU250	18 in., semi-rigid, condenser, unidirectional
268525	GDU150	16 in., flexible, dynamic, unidirectional
268526	MGN19	19 in., flexible, dynamic, omnidirectional

### Microphone Accessories

BOGEN

Bogen offers a variety of microphone accessories to support their wide range of microphones.

Anixter No.	Vendor No.	Description
273240	MAC	Cable, 25 ft., female XLR to stripped and tinned wires
273241	XLR25	Cable, 25 ft., male XLR to female XLR
273243	MFM	Flange mount (GCU250, GDU150)
273244	MSM	Shock mount (GCU250, GDU150)
273246	MC27	Handheld clip (HDO100, HDU150, HDU250)
273247	SF4	Floor stand, 34 in. to 62 in.
273268	SB6	Floor boom stand, 34 in. to 62 in.
273255	DS3	Desk stand, 3 in. chrome finish tube
273269	WSGCU250	Windscreen for GCU250

# Bogen Paging

## Hand-held Microphones

BOGEN

These professional microphones are specially designed, high-output microphones that deliver high performance, reliability and accurate pickup for both vocal and instrumental sound. They are an excellent choice for professional recordings, live performances and other critical sound reinforcement applications.

### FEATURES

- Light weight
- Ruggedly constructed

Anixter No.	Vendor No.	Description
235761	HDU250	Neo magnet dynamic, unidirectional
235763	HDU150	Dynamic, unidirectional
235764	HDO100	Dynamic, omnidirectional
390991	UDMS16HH	Wireless mic system, hand held
394175	UDMS16BP	Wireless mic system, body pack

## Modular Lectern Array

BOGEN

Bogen lecterns are self-powered, self-contained systems utilizing high-end speaker array concepts to provide superior horizontal dispersion in a modular design for maximum flexibility. The MLA40 is a free-standing lectern that can also be configured for tabletop use. The MLA40T is a tabletop version of the lectern. Both are ideal for use in schools, churches, hotels and rental situations.

### FEATURES

- Two models: MLA40 free-standing lectern with six 8 in. speakers and MLA40T tabletop lectern with two 8 in. speakers
- Built-in amplifier 40 W rms

- Switched and unswitched external speaker jacks for quick connection and disconnection of external speakers
- Switched jack automatically disables built-in speakers
- Two mic (Lo-Z) and one aux (Hi-Z) inputs, each with independent volume controls
- Automatic level control for enhanced intelligibility (defeatable)
- Intelligibility-enhancing speech filter (defeatable)
- Shock-mounted, high-quality, cardioid condenser 1.5 1/4 in. gooseneck microphone included
- Independent phantom power for condenser microphone on each mic input
- Recessed brass reading lamp with separate on/off switch or controlled by main power switch

Anixter No.	Vendor No.	Description
304648	MLA40	Modular lectern array, tabletop and podium sections
304649	MLA40T	Modular lectern array, tabletop section only

## Attenuators

BOGEN

The AT series of attenuators allows the output level of a group of loudspeakers to be set from a wall-mounted volume control, without affecting overall amplifier volume settings. These rugged attenuators have 10 levels of sound control plus an off setting.

### FEATURES

- Adjusts loudspeaker output levels on 25 V and 70 V systems
- Two models control up to 10 or 35 W speaker systems
- Ten attenuation steps and an off setting
- Mounts in standard electrical box
- Simple connections

Anixter No.	Vendor No.	Description
241327	AT35A	35 W (double-gang size)
178764	AT10A	10 W (single-gang size)

# Voice Products

## Bogen Paging

### Advanced Input Modules

BOGEN

For Bogen M-Class and Power Vector amps.

Anixter No.	Vendor No.	Description
235731	TEL1S	Telephone input, loop/ground start
235730	SAX1R	Stereo aux input, dual RCA
235729	MIC1X	Mic input module, transformer isolated, XLR
235728	MAX1R	Mono aux input, RCA
235727	BRG1R	Bridging module, RCA
259880	BAL2S	Hi-Z stereo-balanced input module
259881	MIC1S	Mic input module, balanced, transformer isolated, screw terminals
259882	MIC2S	Mic input module, electronically balanced, transformer-isolated, screw terminals
259883	MIC2X	Mic input module, balanced, transformer-isolated, XLR
259884	TBL1S	Transformer, balanced line input
259885	TNG1S	Tone generator

### Advanced Signal-processing Output Modules

BOGEN

Output modules for Bogen Power Vector and Wall-mount Power Vector amps.

Anixter No.	Vendor No.	Description
268534	ANS1R	Ambient noise sensor
268535	CMP1R	Compressor limiter
268536	PEQ1R	Parametric equalizer

### Transformer

BOGEN

The Bogen RIO1S is a multifunctional module with a priority-controlled relay contact, transformer-balanced input, transformer-balanced output and an RJ11 output for direct connection to the override input of a zone paging system.

Anixter No.	Vendor No.	Description
301258	RIO1S	Relay/input/output transformer-balanced module

### FM Tuner

BOGEN

The Bogen FMR Model is an economical FM radio/receiver especially designed to provide background music over a paging system or supply music-on-hold to a telephone system. The unit has 1 W and line-level outputs to facilitate connection to a variety of paging/telephone systems including an amplified speaker.

#### FEATURES

- Economical background music/music-on-hold source
- Choice of 1 W output for music-on-hold or line output for background music
- Automatic frequency control (AFC) prevents signal drift
- Uses 12 V DC or 24 V DC power supply (not included)
- Wall-mount design

Anixter No.	Vendor No.	Description
235757	FMR	FM background music/music-on-hold tuner

AM/FM 35-watt Receiver

BOGEN

The RM350D is a unique self-contained paging system with an AM/FM tuner, providing 35 W of paging power. A low-impedance, balanced microphone input is provided for microphone paging announcements or telephone paging when used with an accessory transformer (WMT1A).

A music-only output can feed announcement-free background music to other equipment or to a telephone music-on-hold input.

FEATURES

- 35 W amplifier for 4- to 8-ohms, 25 V or 70 V speaker systems
- Built-in AM/FM tuner
- 18 FM and 12 AM station presets
- Single-button control for All-Call

Anixter No.	Vendor No.	Description
408495	DRZ35	Four-zone music and paging system

Analog Door Phone

BOGEN

Bogen's Door Phone provides convenient remote, hands-free, two-way communication between two locations. Durable, weather-resistant, stainless steel construction protects against vandals and varying weather conditions.

FEATURES

- Phone line-powered
- Two-way, hands-free communication
- Adjustable speaker and microphone volume
- Adjustable call-timer duration

Anixter No.	Vendor No.	Description
273301	ADP1	Door phone

Interphones

BOGEN

The TP Series of interphones are an ideal way of providing simple telecommunications between different areas in a facility. Simple to install and operate, these phones provide system-wide paging as well as telephonic communications.

FEATURES

- Six- or twelve-station capacity
- Telephonic communications between stations
- Built-in all-station paging

Anixter No.	Vendor No.	Description
273299	TP6AP	Six-station-capacity interphone
273300	TP12AP	Twelve-station-capacity interphone

Teleconference Phone

BOGEN

The VHUB Teleconference Phone is a full-duplex, simultaneous, two-way communication conference phone that provides clean, clear sound for all of your teleconferencing needs. With three microphones, an easy-to-read recessed LCD display, 10-number speed dial, special calling functions and a simple three-step setup process, the VHUB Teleconference Phone is everything you could ask for in a conference phone and more.

FEATURES

- Full-duplex operation
- DSP-based echo cancellation
- High-quality speaker
- LCD display screen
- Three omnidirectional microphones

Anixter No.	Vendor No.	Description
256440	VHUB	Teleconference phone

## Voice Products

# Bogen Paging

### Intercom Systems

BOGEN

Bogen's CM Series of intercoms are ideal for interoffice communications. They provide a separate, direct communications link to other individuals in an organization. Systems can be configured as all-master systems, which allow access to any station in the system, or as master/remote systems, in which remote stations can be restricted to communicating only with specific stations.

#### FEATURES

- Six- or eleven-station capacity
- All-master system or any combination of masters and remotes
- Selective electronic tone calling
- Masters can call any station in system

Anixter No.	Vendor No.	Description
241336	CM206M	Six-button master
241337	CM211M	Eleven-button master
241338	CM200X	Remote station with call and privacy
241340	RF12A	12 V DC, 1 A

### Intercoms

BOGEN

The PI35A and SI35A High-Powered Desktop Control Centers are dual-channel intercom and program distribution systems for applications with numerous locations, requiring maximum intelligibility of voice announcements and other sources.

#### FEATURES

- Communicate with 25 to 75 rooms or remote locations
- Distribute program material from microphones, tape player/tuner, or other background music sources, tone signals and emergency announcements to all or select locations
- Five inputs

Anixter No.	Vendor No.	Description
273291	PI35A	25-room maximum intercom and program distribution system
273296	SI35A	75-room maximum intercom and program distribution system

### ANS-501 Paging Electronics

BOGEN

The ANS-501 automatically adjusts the paging levels in response to changes in the ambient noise of an area. Small sensor microphones monitor the ambient noise levels in an area served by a single amplifier. Paging signal output levels will be increased as ambient noise rises and decreased as noise levels drop. The ANS-501 control unit will adjust (boost or reduce) the input signal levels to the amplifier to ensure that the paging announcements will be heard at an audible, clear and comfortable level over the current ambient noise.

#### FEATURES

- Automatically adjusts paging level as ambient noise rises and falls
- Supports up to four small sensor microphones
- Sensor microphones can be located up to 2,000 ft. from control
- Only two wires needed for connection of sensor microphones
- Easily connects in at pre-amp out-power amp in process loop
- Shapes frequency response during high noise levels for best intelligibility

Anixter No.	Vendor No.	Description
235742	ANS501	Ambient noise sensor with power supply and one microphone
235743	ANS500M	Additional microphone for ANS500

### VAR-1 Paging Electronics

BOGEN

The VAR-1 is a relay device that monitors audio activity over a wide range of input voltages and operates two sets of C-Form relay contacts in response to detected activity. The VAR-1 can be used to detect voltages as low as signals directly from a microphone or as high as signals from 70 V speaker systems. A low-level output of the detected audio, transformer-isolated from the input, is also made available for use with other equipment. Also can be used as a balanced low-impedance mic pre-amp.

#### FEATURES

- Two sets of C-Form (both N.O. and N.C.) relay contacts respond to audio activity
- Four levels of input signals: microphone, 600-ohms line, 25 V and 70 V speaker systems
- Built-in balanced, low-noise, high-gain microphone pre-amp

Anixter No.	Vendor No.	Description
235749	VAR1	Voice activated relay (requires PRS40C P.S.)

DFT-120 Paging Electronics

BOGEN

The DFT-120 eliminates the acoustical feedback loop created by the telephone handset and the paging speaker, while providing high-capacity, high-quality recording and playback of audio pages.

**FEATURES**

- High sampling rate for excellent playback quality
- Ability to record a message while another is played
- Wall-mountable

Anixter No.	Vendor No.	Description
235744	DFT120	Digital paging feedback terminal

TAMB Paging Electronics

BOGEN

The TAMB interfaces a telephone system with a paging system, allowing announcements to be made through any telephone. Any of these types of analog ports can be connected using the TAMB: loop-start trunk, ground-start trunk and station port (90 V ring-up). This wide range of port compatibility makes the TAMB indispensable for any telephone paging application because it eliminates the possibility of mismatching paging interfaces and port types.

**FEATURES**

- Loop-start, ground-start and station port (90 V ring-up) compatibility
- 600-ohms output
- Built-in confirmation tone indicating access to paging system (defeatable)
- Built-in pre-announce tone produced over paging system before announcement (defeatable)
- Adjustable tone volume

Anixter No.	Vendor No.	Description
103572	TAMB	Telephone access module

TG-4C Paging Electronics

BOGEN

The TG-4C is designed to produce four different types of tones for use as alarm or announcement signals in paging systems. An audio signal can be routed through the TG-4C to allow easy installation in paging systems. During generation of the tones, the routed audio will be suppressed.

**FEATURES**

- Four types of tones: steady, pulsed alarm, slow whoop and chime
- Tones triggered by external contact closure (momentary or long duration)
- Choice of continuous generation of tones or two-burst operation (except for steady tone)
- 600-ohms output

Anixter No.	Vendor No.	Description
178761	TG4C	Telephone generator (requires PRS40C P.S.)

ZPM3 Zone Paging

BOGEN

The ZPM3 allows for economical one- or two-way paging (with TBA 15 Talk-Back Amplifier) to be directed into any of up to three different paging areas. Zones can be grouped together so that more than one zone is paged at the same time. All areas can also be paged at once. Zone selection can be made using DTMF tones or pulse dialing.

**FEATURES**

- Three-zone paging plus All-Call
- Three easily programmable zone groups (one to three zones in each)
- 100 W total power handling capability
- Background music input

Anixter No.	Vendor No.	Description
178742	ZPM3	Independent three-zone paging module

## Voice Products

# Bogen Paging

### PCM-2000 Zone Paging Systems

BOGEN

The PCM-2000 allows you to design a system that is specifically tailored to the requirements of the facility owner. The basic system supports up to three paging zones and consists of only three modules: central processor, telephone interface and zone module plus a power supply. Two additional zone modules can be added to the basic system to increase capacity to nine zones. When more than nine zones are required, a central processor module and up to three zone modules can be assembled as a satellite system. Ten additional nine-zone satellite systems can be installed to bring total zone capacity to 99 zones. When hands-free talk-back is desired, a single talk-back module can also be added to the system.

All interface programming uses common dip switches. Zone group programming, selection of signaling functions and all other parameters are easily set up by simply dialing in with a touch-tone phone. The system can support simultaneous high- and low-power paging, background music assigned per zone, local background music sourcing, and emergency zone group with choice of built-in tones or outside tone source.

Anixter No.	Vendor No.	Description
163464	PCMPCU	Central processor module
176038	PCMTIM	Telephone interface module
163466	PCMZPM	Zone module
176056	PCMTBM	Talk-back module
235739	PCMPS2	Power supply (one required per PCMPCU)

### UTI1 Zone Paging Systems

BOGEN

The UTI1 Universal Telephone Interface provides single-zone paging for one-way applications such as self-amplified speaker systems. It is compatible with all standard analog port types and includes two audio outputs with level controls, each of which can provide audio for 150 Bogen self-amplified speakers. A 24 V DC at 1 A internal supply is available to power external equipment.

#### FEATURES

- Emergency and general All-Call paging
- Interface with any telephone port type
- Background music input with variable muting options

- 24 V DC 1 A power supply included
- Output limiter ensures consistent page volume
- Override, triggered tones, night ring and aux relay contact
- 150-speaker T/R drive capacity per output

Anixter No.	Vendor No.	Description
304654	UTI1	Single-zone universal telephone interface
304655	RPKUTI1	Rack-mount and security cover kit

### UTI312 Zone Paging Systems

BOGEN

The UTI312 Zone Paging Controller provides multizone paging for one-way applications such as self-amplified speaker systems, with each output capable of providing audio for up to 150 Bogen self-amplified speakers. The UTI312 is compatible with all standard analog port types. Each UTI312 comes with a pre-installed ZX3 module for three zones of paging and is expandable up to 12 zones. The UTI312 offers up to 24 programmable paging zone groups as well as All-Call, auto select, override, night ring, two tone triggers and code-calling zone groups. The UTI312 also offers flexible dialing.

#### FEATURES

- Expandable from three to twelve zones with ZX3 (one to three zone) modules
- Up to 24 paging zone groups
- Interface with any telephone port type
- Two background music inputs with variable muting options, assigned by zone
- 24 V DC 1 A power supply included
- Override, triggered tones, night ring, code calling and aux relay contact
- 150-speaker T/R drive capacity per output

Anixter No.	Vendor No.	Description
304656	UTI312	Multizone universal telephone interface
304657	ZX3	Three-zone expansion module for UTI312

### VoIP Paging

BOGEN

Businesses can be set up for simultaneous company-wide overhead paging to multiple locations within a facility or across a campus without running new lines, or even to remote locations thousands of miles away. Bogen's zone paging controllers, the TAMB, and amplifiers integrate seamlessly with VoIP gateways to provide overhead voice paging over IP networks.

# Bogen Paging

## FEATURES

- Utilizes existing Ethernet network
- Simultaneous overhead voice paging to multiple locations within a facility, nearby or branch office buildings, or to remote locations using the Internet or Intranet
- Single- or multizone paging at any or all locations
- Efficiently communicate company-wide emergency alerts or general announcements, saving both time and money while improving communication
- Connects directly to phones or PBX; compatible with virtually any telephone port type
- Configurable from a Web browser or Microsoft Windows

Anixter No.	Vendor No.	Description
304650	MVP130BG	1-port VoIP gateway
304651	MVP210BG	2-port VoIP gateway
304652	MVP410BG	4-port VoIP gateway
304653	MVP810BG	8-port VoIP gateway

## FEATURES

- Provides music and messages to callers placed on hold
- Clear digital audio quality
- Digital program transmission accuracy
- 600-ohms transformer-balanced output and 1 W into 8-ohms output
- Single-track control allows separate downloading of music and message so either can be changed at any time without affecting the other part of the program
- Audio files for download are standard WAV format, compatible with most studio editing and production software
- Store separate programs to run day/night, weekend or holiday/normal

Anixter No.	Vendor No.	Description
184955	PRO4	Four-minute capacity
235751	PRO8	Eight-minute capacity
184958	PRO12	Twelve-minute capacity
235753	PRO16	Sixteen-minute capacity

## NR-100 Night Ringer

BOGEN

Model NR-100 connects to an amplifier via an auxiliary input and provides an electronic ring signal throughout the sound system when activated by telephone system night bell circuitry. Eliminates the need for separate night bells to alert security or other personnel of incoming calls. Operates from either 90 V ring signal or contact closure. Automatically mutes background music.

## FEATURES

- Responds to 90 V ring signals or external system
- Produces dual-frequency electronic ringer tone
- Easily connects to any paging system
- Automatically mutes background music while ringing

Anixter No.	Vendor No.	Description
107320	NR100	Night ringer

## ProHold Music-on-Hold

BOGEN

Bogen's ProHold products are music-on-hold announcers that turn a caller's on-hold waiting time into productive information and selling time. This system assures simple, reliable and high-quality playback of messages/music.

## TPU Series Telephone Paging Amplifiers

BOGEN

Specifically designed for telephone paging, the TPU Series of amplifiers offers a choice of rated power output from 15 to 250 W. Input terminals are provided for a 600-ohms balanced telephone line and a background music source, as well as a balanced low-impedance microphone in the TPU-250, TPU-100B, TPU-60B and TPU-35B. Bridging jacks which double your outputs are also provided. The built-in night ringer sounds a tone through the paging system speakers when triggered by an external contact closure. Voice-activated circuitry automatically mutes or fades music when paging, eliminating mechanical and background noise. The TPU amplifiers also feature the Apex Aural Exciter circuit for increased presence and intelligibility, greater perceived loudness (with no increase in power) and reduced listener fatigue. The compact units mount easily on a wall and only a screwdriver is needed for all connections and adjustments. UL and CSA Listed.

Anixter No.	Vendor No.	Description
106151	TPU15A	15 W
106149	TPU35B	35 W
106150	TPU60B	60 W
103745	TPU100B	100 W
235724	TPU250	250 W

## Voice Products

# Bogen Paging

### Volume Controls

BOGEN

The BUFEX is a continuously variable speaker attenuator that can remotely control the volume of a network of speakers. The BUFEX also provides output buffering for up to 150 self-amplified speaker inputs and allows speaker system expansion from existing 100 V, 70 V or 25 V central amplifier systems. The BUFEX includes a bypass function that can override the volume control knob setting (even if set low or off) when activated by a contact closure or open collector output. A PCB-mounted bypass trim control adjusts the volume when in bypass mode with a maximum of 12 dB of attenuation. This allows emergency announcements to be heard through all speakers in a system. The BUFEX fits into a single-gang electrical box.

#### FEATURES

- Volume control for a network of speakers
- Buffer drives up to 150 speakers
- Bypass feature allows emergency announcements to be heard even when local speaker volume is set low or off
- Expand 100/70/25 V systems
- Ten position settings plus off

Anixter No.	Vendor No.	Description
304669	BUFEX	Attenuator, buffer, and speaker expander for amplified speakers

### Volume Controls

BOGEN

The SLC is a continuously variable volume control that can remotely control the volume of up to 150 self-amplified speakers. The SLC fits into a single-gang electrical box.

#### FEATURES

- Volume control for network of speakers
- Easy to install, wire with audio feed to speakers
- Ten position settings plus off
- Secure terminal strip connections

Anixter No.	Vendor No.	Description
304670	SLC	Passive volume control for amplified speakers

### Loop Start Interface/Power Supply

BOGEN

The PRSLSI serves as both a loop start interface and as a 24 V DC power supply.

#### FEATURES

- 24 V DC, 450 mA power supply
- Loop start interface for small paging systems
- Integral flanges for wall-mount; rubber feet for shelf-mount
- Six-terminal barrier strip
- UL and CSA Listed

Anixter No.	Vendor No.	Description
304658	PRSLSI	Loop-start interface, 24 V DC, 450 mA power supply

### Power Supplies

BOGEN

These power supplies are designed to supply the low-voltage DC requirements for Bogen products. Corded or outlet-mounted, 120 V AC primary supply input.

#### FEATURES

- Specially designed for use with Bogen equipment
- Wide range of voltages and current outputs

Anixter No.	Vendor No.	Description
241334	PRS48	48 V DC, 100 mA power supply
241335	PRS40C	12 V DC, 300 mA power supply
241340	RF12A	12 V DC, 1 A
273238	RF24A	24 V DC, 1 A

Wall-mount Power Supplies

BOGEN

Bogen's switching power supplies provide large current capacities in compact packages. They include easy and secure wall mounting with holsters or flange mounting.

FEATURES

- 24 V DC, power supply
- Loop start interface for small paging systems
- Integral flanges for wall mount; rubber feet for shelf mount
- Six-terminal barrier strip
- UL and CSA Listed

Anixter No.	Vendor No.	Description
304674	SPS2454	24 V DC at 5.4 A
304676	SPS2425	24 V DC at 2.5 A
304677	SPS2410	24 V DC at 1 A
304678	SPS2406	24 V DC at 600 mA
304679	PRS2403	24 V DC at 300 mA, non-switching

Flange-mounted Re-entrant Type Horn

BOGEN

FEATURES

- 15 watts max. @ 70 V or 25 V
- Weatherproof design for indoor or outdoor use
- Vandal resistant, for applications in hostile environments
- All metal construction with black enamel finish
- Select flush- (BBFM6) or surface- (BBSM6) mount enclosure for installation (each sold separately)

Anixter No.	Vendor No.	Description
369379	FMH15T	Flange-mounted re-entrant type horn
369380	BBFM6	Flush-mount enclosure, black
369381	BBSM6	Surface-mount enclosure, white
369382	FMHAR8	Mounting adapter ring for FMH15
369383	SGHD8	Heavy-duty grille for FMH15, use with FMHAR8

High-fidelity Ceiling Speaker, Low Profile

BOGEN

FEATURES

- 6 3/4 in. mounting depth for installations into a variety of ceiling environments including suspended and hard surface ceilings
- Low-profile housing allows greater range of installation depths
- Computer-matched venting system for full bass output
- Wide dispersion coaxial driver provides broad, even coverage
- For 16 ohm, 70 V and 100 V systems
- Off-white finish

Anixter No.	Vendor No.	Description
265155	TBCR	Tile bridge and c-ring support ring
268547	CK-10	10 ft. long cable kit, silver
367042	HFCS1LP	High-fidelity ceiling speaker, low profile

High-fidelity, Small-footprint Ceiling Speaker

BOGEN

FEATURES

- Wide-dispersion coaxial driver for broad, even coverage; superb off-axis response
- Visually appealing, only 7 3/16 in. in diameter
- 4 in. cone speaker with tweeter
- Installs in wide range of ceiling types
- For 16 ohm and 70 V systems
- Selectable power taps via front-mounted control (under grille); 16, 8, 4, 2, 1 watts at 70 V

Anixter No.	Vendor No.	Description
268547	CK-10	10 ft. long cable kit, silver
369385	HFSF1	High-fidelity ceiling speaker, low profile
369386	TBSF	Tile bridge support
421328	CSUB	High-fidelity ceiling subwoofer

## Drop-in Ceiling Speaker with Volume Control

BOGEN

## FEATURES

- Recessed volume control accessible from front of grille
- Easy assembly saves installation time, effort, and cost
- 1 ft. x 2 ft. perforated grille over entire front; off-white finish
- 8 in. cone speaker with 10 oz magnet and tweeter, and 25/70 V transformer
- Five power taps (4 W, 2 W, 1 W, 1/2 W and 1/4 W); selectable by rotary switch
- Complies with NFPA National Code 160b and UL 2043

Anixter No.	Vendor No.	Description
369388	CSD1X2	Ceiling speaker, drop-in 1 ft. x 2 ft. with volume control

## Drop-in Ceiling Speaker with Volume Control

BOGEN

## FEATURES

- Recessed volume control accessible from front of grille
- Easy assembly saves installation time, effort and cost
- Tile support rail for 2 ft. x 4 ft. ceilings included
- 2 ft. x 2 ft. perforated grille over entire front; off-white finish
- 8 in. cone speaker with 10 oz magnet and tweeter, and 25/70 V transformer
- Five power taps (4 W, 2 W, 1 W, 1/2 W and 1/4 W); selectable by rotary switch
- Complies with NFPA National Code 160b and UL 2043

Anixter No.	Vendor No.	Description
368434	CSD2X2VR	Ceiling speaker, drop-in, 2 ft. x 2 ft., with volume control

## Drop-in Ceiling Speaker with No Back

BOGEN

## FEATURES

- Exposed driver
- Easy assembly saves installation time, effort and cost
- 1 ft. x 2 ft. perforated grille over entire front; off-white finish
- 8 in. cone speaker with 6 oz magnet and tweeter, and 25/70 V transformer
- Six power taps (4 W, 2 W, 1 W, 1/2 W, 1/4 W and 1/8 W); selectable by stripped and tinned leads

Anixter No.	Vendor No.	Description
369389	CSD1X2NB	Ceiling speaker, drop-in 1 ft. x 2 ft, no back speaker enclosure

## Drop-in Ceiling Speaker, No Back with Volume Control

BOGEN

## FEATURES

- Exposed driver
- Recessed volume control accessible from front of grille
- Easy assembly saves installation time, effort and cost
- 1 ft. x 2 ft. perforated grille over entire front; off-white finish
- 8 in. cone speaker with 6 oz magnet and tweeter, and 25/70 V transformer
- Six power taps (4 W, 2 W, 1 W, 1/2 W, 1/4 W and 1/8 W); selectable by stripped and tinned leads

Anixter No.	Vendor No.	Description
369391	CSD1X2NBVR	Ceiling speaker, drop-in, 1 ft. x 2 ft. no back speaker enclosure, with volume control

097959	40414	Clear

## ComSwitch Line-sharing Devices

COMMAND COMMUNICATIONS

Reduce communications expenses by using one of the ComSwitch series of line-sharing devices, the perfect telephone line manager for small offices/home offices. Just plug it in anywhere on a regular telephone line and all incoming calls are automatically routed to the correct piece of equipment.

Anixter No.	Vendor No.	Description
188554	CS5500	Three devices, one line

## Stinger 90 Model 196 Line-powered Ringer

DEES COMMUNICATIONS

The Stinger 90 Model 196, line-powered telephone ringer provides 110 dBA output and is driven from the ringing voltage on the CO line. Rugged weatherproof housing is suitable for indoor or outdoor use. The model 196 is equipped with a three-position switch for volume control and comes with a modular cord plus screw terminals. Can be wall-mounted.

Anixter No.	Vendor No.	Description
099058	196	Line-powered ringer

# Telephone Accessories

## DSI-375 Meridian Custom Ringer

DEES COMMUNICATIONS

Enhances the ringing performance of NTI's Meridian Business Sets by allowing for distinctive ringing, second-call alert-tone cadence, a common audible (loud bells) and much more.

Anixter No.	Vendor No.	Description
134431	DSI-375	Custom ringer

## Message-waiting Lamp

VIKING ELECTRONICS

The Model LM-1A message-waiting lamp provides a visual indication of ringing and off-hook condition. Can be used for message-waiting and voicemail systems that provide 90 V DC to 120 V DC.

Anixter No.	Vendor No.	Description
284277	LM-1A	Message waiting lamp

## Two-way Ringdown Circuit

VIKING ELECTRONICS

The DLE-200B allows two-way communication between most standard telecom products such as modems, fax machines, key systems, PABXs and standard single-line telephones. Provides salespeople with an easy-to-use method of conducting on-site demonstrations. The DLE-200B eliminates the need to locate phone lines and disrupt the customer's phone service.

### FEATURES

- Compatible modems and fax machine speeds up to 28.8 kbps
- 32 V DC talk battery
- Standard ring cadence (two seconds ON, four seconds OFF) and three custom/distinctive ringing selections
- Provides 150 mS CPC breaks after hang-up on either port (which can be disabled)
- Switch-selectable audio attenuation

- Provides two seconds of precise dial tone after off hook (which can be disabled)
- Provides ring-back signal to calling device
- One- or two-way ringdown capability
- Selectable five or continuous number of rings
- Used for demonstrating telecom equipment - trade shows, meetings, colleges, etc.
- Used for demonstrating the distinctive ring detection feature of Viking's FAXJ-1000
- Ringdown point-to-point communications

Anixter No.	Vendor No.	Description
166768	DLE-200B	Two-way ringdown circuit

## Amplified Remote Access Device

VIKING ELECTRONICS

The RAD-AMP extends the usefulness of your phone system to remote employees, as well as providing call forwarding to remote employees or locations. As a line extender, the RAD-AMP provides authorized users remote access to PABX, Centrex or electronic key system features. As a call diverter, the RAD-AMP provides call forwarding from one location to another. After detecting an inbound call, the RAD-AMP accesses a second phone line, dials a preprogrammed touch-tone number, and then bridges the two lines. As a telecommuting extender, the RAD-AMP gives remote workers access to most PABX/KSU features from their home or cell phone. The home-based employee hears a special tone when answering and has the option of taking the work-related call. Remote call center personnel can "Log-in" and "Log-out" or change their forwarding number as their location changes. Using touch-tones, remote workers can use phone system features to transfer the call to another extension or voice mail, start a conference call, and generate a page or any other feature available to an analog PABX/KSU extension.

### FEATURES

- Improved audio amplifier
- Programmable six-digit security code
- Programmable ring delay
- Remote night switch
- Disconnects on CPC, busy, return dial tone, maximum call time or by dialing #7
- Nonvolatile memory (no batteries required)
- Auxiliary dry contacts
- Programmable 15-second-to-49.5-minute call timer
- Compatible with analog stations on PABX and KSU systems
- Simple programmable toll restriction

Anixter No.	Vendor No.	Description
224936	RAD-AMP	Amplified remote access device

## Telephone Accessories

## Hot-line Touch-tone Dialer

VIKING ELECTRONICS

The K-1900-5 will automatically dial a preprogrammed number, of up to 32 digits, whenever an associated telephone is taken off hook. Using nonvolatile E2 memory, the K-1900-5 is phone line-powered and will operate on any loop-start central office line or analog PABX/KSU extension.

The K-1900-5 is easily programmed remotely or locally using a standard touch-tone phone.

## FEATURES

- Touch-tone programmable
- Telephone line-powered
- Nonvolatile E2 memory (no batteries required)
- Ring detection (will not dial on inbound calls)
- User-programmable security code
- Programmable pauses in one- and four-second increments
- Programmable to interrupt user touch-tone dialing to help control fraudulent calls from hand-held dialers, etc.
- Programmable dialing speed (normal or fast)
- Can be configured to operate from a contact closure

Anixter No.	Vendor No.	Description
193548	K-1900-5	Hot-line touch-tone dialer

## Paging Amplifier Loud Ringer

VIKING ELECTRONICS

The PA-2A provides loud ringing and paging to electronic key systems, 1A2 key systems and PABXs as well as non-KSU phones and multiline phones. Paging is accomplished by connecting the PA-2A to a paging port or unused telephone line input (trunk port) of nearly any phone system. The PA-2A will also generate adjustable loud ringing from up to six analog lines or from a dry contact closure. Either a loud electronic warble, or one of three other soft-chime sounds, may be selected. An external "night transfer" switch can be added to turn loud ringing on or off in night bell applications.

## FEATURES

- Two watts of paging power
- All lines are optically coupled for compatibility with fax switches and analog PABX/KSU stations
- Can provide background music from an external source (trunk mode only)
- Paging from an unused trunk port or paging port
- Choose one of four ringing sounds: electronic warble (traditional loud ringer), double gong (two identical "gong" tones), quadruple chime (four descending chime tones), door chime (ding-dong)
- Provides loud ringing or night bell, from one to six lines for warehouses, yards, etc.
- Output for controlling a 12 V relay from one to six ringing lines
- Page alert tone (trunk mode only)
- 600 ohm output for sourcing high-powered amplifiers

Anixter No.	Vendor No.	Description
122272	PA-2A	Ringer and paging amp

## Service Observation Unit

VIKING ELECTRONICS

The SO-24A allows supervisors to silently monitor employee phones without disrupting the activity at their workstation. The information gathered may be used for quality purposes, to train, motivate, even assist customer service and telemarketing representatives. A supervisor may enter the conversation by dialing an asterisk. A cassette recorder output permits automatic or manual recording of conversations. The SO-24A features improved audio and can now be easily expanded to 240 stations by installing additional SO-24A units. The SO-24A can be programmed with a two, three, or four digit dial-up code to match extension numbers.

## FEATURES

- 24-station capacity can be expanded to 240 stations at any time
- Compatible with analog PABX/KSU stations
- Configurable for digital phones (requires the SO-24 AK and a dedicated pair of wires)
- Monitor stations from an unused phone system line input or to a dedicated single-line phone
- Add remote observing with a RAD-AMP Remote Access Device
- Built-in talk assist
- Dial-up code can be programmed to match the phone system's station or extension numbers
- Cassette recorder output with automatic or touch-tone control
- Automatic gain control equalizes in- and outbound conversation levels
- Call-progress tones for observing supervisor

Anixter No.	Vendor No.	Description
274197	SO-24A	Service observation unit

# Telephone Accessories

## Remote Touch-tone Controller

VIKING ELECTRONICS

The RC-2A Remote Controller provides remote relay operation from any standard touch-tone telephone. The controller is designed to be installed either locally or remotely. For local installations the RC-2A can be installed in series on any analog communications path, such as analog C.O. lines, analog PABX/KSU stations or Viking's W-Series Doorboxes and will passively monitor for touch-tone commands. For off-premise applications, the RC-2A will answer analog C.O. lines or PABX/KSU stations after a selectable ring delay. A field programmable access code can also be programmed to prevent unauthorized usage. The RC-2A will then allow remote relay operation.

### FEATURES

- Programmable access code
- Normally open or normally closed relay
- Selectable relay closure times
- Selectable ring delay (1, 2, 6 or 15)
- Easy installation with modular jacks and screw terminals

122270	RC-2A	Remote touch-tone controller

## Push to Call Speakerphone

VIKING ELECTRONICS

The E-10A and E-20B can be connected directly to a C.O. line or analog PABX/KSU station when used in conjunction with a hot-line dialer or programmed ring down circuit. When the "Call" button is pressed, the E-10A or E-20B will come off-hook and will remain off-hook until a CPC is detected or the pre-selected timeout has elapsed, the unit will then automatically disconnect. For outdoor or harsh environments, the E-10A and E-20B are available with Enhanced Weather Protection (EWP).

### FEATURES

- Phone line-powered
- Weather resistant
- Optional Enhanced Weather Protection (EWP)
- Adjustable microphone and speaker volume
- Intelligent call progress detection for automatic hang-up on CPC, silence, busy signal or time out
- Selectable auto-answer feature allows remote monitoring
- VOX (mic/speaker) switching speed selection

## Telephone Accessories

## VE-Series Backboxes

VIKING ELECTRONICS

The VE-3x5, VE-5x5, VE-6x7 and VE-5x10 add vandal and weather resistance, as well as versatility to many Viking products. The VE-Series backboxes are available in black powder painted steel or stainless steel. The weather-resistant boxes are designed to be surface-mounted to a wall, post, single-gang box or a VE-GNP gooseneck pedestal. Note: The VE-3x5 is not compatible with the VE-GNP pedestals and is not available in stainless steel.

The VE-3x5 is designed to be used with the E-40 or E-50 Series entry phones. The VE-5x5 is designed to be used with the E-10, E-30, E-35, E-60, E-65, E-70 and E-75 series hands-free phones, the E-1600-20A and E-1600-30A emergency phones, as well as the W-1000, W-3000, and W-3005 hands-free doorboxes.

The VE-6x7 is designed to be used with the K-1700-3 and K-1705-3 hands-free phone and the VE-5x10 is designed to be used with the K-1500-7, K-1900-7 and the K-1900-8 vandal-resistant phones. The VE-Series backboxes are also compatible with EWP versions of these products. The VE-GNP gooseneck pedestals are designed to be used with the VE-5x5, VE-6x7 and VE-5x10 backboxes and are ideal for drive-up communications. The VE-PNL's are VE-Series backboxes with a blank aluminum panel. The user can customize the clear-coated aluminum panel to mount an HID-1 card reader, keypad or switch. The kits come complete with box, gasket, panel and screws. Model numbers that end with "SS" are stainless steel versions.

## FEATURES

- The VE-Series surface-mount boxes are designed to surface mount the following products:
  - VE-3x5 - E-40 series and E-50 series
  - VE-5x5 - E-10A, E-30, E-35, E-60, E-65, E-70, E-75, E-1600-20A, E-1600-30A, W-1000, W-3000 and W-3005
  - VE-5x10 - K-1500-7, K-1900-7 and K-1900-8
  - VE-6x7 - K-1700-3 and K-1705-3

# Fact:

At any given time, Anixter carries over \$6.1 billion in product inventory in our global distribution network. Chances are, we have the product you need in stock today. Just give us a call at 1.800.ANIXTER and let us know what you need! We can ship it today!

Anixter was built on the principle that “you can’t sell from an empty wagon.” We believe maintaining a broad and deep inventory is key to our ability to serve you better. On occasion, Anixter has held up to \$5 million in dedicated inventory for a strategic customer. We dedicated 35 percent of our 192,000 square-foot warehouse in Memphis, TN, for a project for one of the nation’s largest retailers.

We also inventoried \$5 million of Anixter-owned and non-Anixter-owned inventory for a large financial institution in our 100,000 square-foot warehouse in Anaheim, CA.

Holding that level of inventory in our warehouses is nothing to us at Anixter! In our Electrical and

Electronic Wire & Cable division alone, we will stock and sell approximately 1.5 billion feet of electrical and electronic cable this year. That’s about 285,000 miles of cable! When it comes to stocked product, you’ve come to the right place at Anixter.

**Anixter can for you too.**
