

Test and Measurement

Field Certification

The Utility Grade Infrastructure (UTG) program has been developed alongside our world-class global partners. These UTG-recommended components from Fluke Networks enable you to support the rapid evolution of technology in state-of-the-art building environments.

Product Overview

Fluke Networks' UTG solutions provide field certification cable testing to validate UTG performance beyond industry standards. The below cable certifier recommendations complement a full UTG solution providing access to exclusive Fluke field test limits that meet the UTG Framework.

Versiv Cable Certifier

The Versiv™ family accelerates every step of the certification process. Future-ready design supports copper certification, fiber loss, OTDR testing and hardware upgrades. The revolutionary ProjX™ management system and Taptive™ user interface ensures jobs are done right the first time. Analyze test results and create professional test reports using LinkWare™ management software.

Specifications and Value

- Exclusive UTG field test limits that perform at 100, 150, and 185 meters meeting the UTG Framework
- Versiv™ modular design supports copper certification, fiber optic loss, OTDR testing and fiber end-face inspection
- Unmatched speed for Cat 6A, 8, Class FA, I/II and all current standards
- ProjX™ system manages job requirements and progress from set-up to systems acceptance, making sure all tests are completed correctly
- Taptive™ user interface simplifies set-up and eliminates errors
- Analyze test results and create professional test reports using LinkWare™ management software
- Graphically displays the source of failures including crosstalk, return loss and shield faults for faster troubleshooting
- Intertek Verified to TIA Level 2G – the most stringent accuracy requirement
- Built in Alien Crosstalk testing
- Compatible with LinkWare Live

Utility Grade Infrastructure

| Fluke Part # | Wesco Part # | Product Details |
|-------------------|--------------|--|
| DSX2-8000/GLD | 951459 | DSX-8000 2 GHz up to Cat 8 CableAnalyzer™ with 1 Yr Gold Support |
| DSX2-8000QI/GLD | 951503 | DSX-8000QI 2 GHz up to Cat 8 CableAnalyzer™ w/SM and MM fiber loss testing, fiber inspection and 1 Yr Gold Support |
| DSX2-8000QOI/GLD | 951505 | DSX-8000QI 2 GHz up to Cat 8 CableAnalyzer™ w/SM and MM fiber loss, OTDR testing, fiber inspection and 1 Yr Gold Support |
| DSX2-8000-PRO/GLD | 951499 | DSX-8000-Pro 2 GHz up to Cat 8 CableAnalyzer™ w/SM and MM fiber loss, OTDR testing, fiber inspection, full accessories and 1 Yr Gold Support |
| DSX2-5000/GLD | 951455 | DSX-5000 1 GHz up to Cat 6a CableAnalyzer™ and 1 Yr Gold Support |
| DSX2-5000QI/GLD | 951495 | DSX-5000QI 1 GHz up to Cat 8 CableAnalyzer™ w/SM and MM fiber loss testing, fiber inspection and 1 Yr Gold Support |
| CFP2-100-Q/GLD | 951467 | CFP2-100-Q CertiFiber® Pro Optical Loss Test Set for SM and MM with 1 Yr Gold Support |
| OFP2-100-QI/GLD | 951486 | OFP2-100-QI OptiFiber® Pro OTDR for SM and MM with inspection and 1 Yr Gold Support |

Note: The above part numbers are featuring Fluke’s top products within the UTG space and are not all inclusive of all Fluke’s available configurations.

Wesco has all the capabilities needed to tackle complex projects for smart environments. Utility Grade Infrastructure is our innovative solution that will support IoT implementations that span every corner of the commercial building. For more details, visit Wesco.com/UTG.
