# Build Solar Better

## 20-Year Warranty

Performance You Can Trust from  
PV Module to Transmission Line.

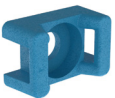

**PANDUIT**®

# Explore Solar solutions backed by our **20-year warranty**

Part	Part Name	Part Number	Description
	<b>Nylon 612 Cable Ties</b>	<b>PLT2S-C6120</b>	Cable ties designed for solar applications. High resistance to UV light and corrosive elements.
	<b>Nylon 12 Cable Ties</b>	<b>PLT2S-C120</b>	Premium cable ties designed for solar applications. High resistance to UV light and corrosive elements.
	<b>Dura Ty™ Extruded Strap and Heads</b>	<b>DTKH-0</b>	Created for harsh outdoor power and communications applications, ideal for larger home-run bundles.
	<b>Composite Edge Clip (no ties)</b>	<b>CMS12-M300</b>	Versatile mounting to PV module edges without adhesives or drilling. Pair with cable ties to secure and route wires.
	<b>Nylon Adjustable Solar Edge Clips</b>	<b>UCCPD-C130</b>	Patented, tool-free clip adjusts to various rack sizes. Great for managing PV wires on solar panels.
	<b>Stainless Steel Solar Edge Clips</b>	<b>MEC100-2PV-C</b>	Durable metal clip designed to secure 1, 2, or 4 wires to the edge of PV modules.
	<b>Stainless Steel Wire Hangers</b>	<b>WH10SS-C</b>	Quickly suspend string bundles along solar arrays using predrilled holes in PV modules.
	<b>Stainless Steel Cable Ties <i>Contractor Grade</i></b>	<b>IMLT102S-C</b>	Versatile, self-locking stainless steel ties install easily and deliver consistent retention strength without tools.
	<b>Fully Coated Stainless Steel Cable Ties <i>Contractor Grade</i></b>	<b>IMLTFC102S-C6L</b>	Strong enough to withstand corrosive environments. Self-locking, tool-free, and easy to handle.
	<b>Stainless Steel Cable Ties <i>Premium</i></b>	<b>MLT4H-LP</b>	Premium, self-locking stainless steel ties install easily and deliver consistent retention strength without tools.
	<b>Coated Stainless Steel Ties <i>Premium</i></b>	<b>MLTFC4S-CP316</b>	Premium performance in corrosive environments. Self-locking, tool-free, easy to handle and thread.
	<b>ETFE Cable Ties</b>	<b>PLT2S-C76</b>	Specialty cable ties designed to resist chemicals, UV radiation, and extreme temperatures.
	<b>ETFE Cable Tie Mount</b>	<b>TM3S10-C76</b>	Specialty cable tie mounts designed to resist chemicals, UV radiation, and extreme temperatures.
