

TALKPHONE

THE LEADERS IN SECURITY AND LIFE SAFETY COMMUNICATIONS

SAFETY FOR LIFE.

"I remind our people that the products we make very often say "emergency" on them. That means when someone pushes that button, it has to work. Every time. Someone's depending on what we do."

— **Samuel Shanes**, Talk-A-Phone Chairman

"We have so much experience in the security industry, so much experience in the products we offer and so much depth in terms of engineering that we're able to design a system perfectly for each of the people we work with."

— **Bob Shanes**, Talk-A-Phone Vice President of Sales

"My top priority is identifying the customer's needs, and getting those needs met—and doing it in a timely manner. I want to be 'their guy' when it comes to security and life safety products."

— **Nicole Rivera**, Talk-A-Phone Inside Sales Specialist

"We test everything. With every product we make, we make sure it's perfect before it ships. Not just good, not just okay. Perfect."

— **Hilda Ochoa**, Talk-A-Phone Working Group Supervisor

"It's not just the requirements. We don't really use the word 'just' in any of our designs. We cover the requirements, then we focus on, specifically, the actual need of an end-user of the system."

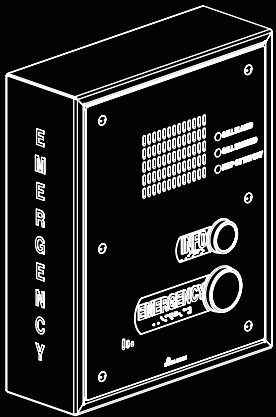

— **Josh Skorich**,
Talk-A-Phone System Analyst

"When I'm walking to my car, it makes me feel good to see that emergency phone and know there's always someone there if I need help, anytime, day or night."

— **Beth Murray**, student,
Loyola University Chicago

AT TALK-A-PHONE,
WE BUILD PRODUCTS
THAT BRING SAFETY
AND SECURITY TO
EVERYDAY LIFE.

Durable and easy to use, outdoor VoIP emergency and information phones work on a multitude of platforms and fit nearly any environment.

ON A COLLEGE CAMPUS. IN A HEALTHCARE FACILITY. AN OFFICE COMPLEX. A CITY PARK. A SHOPPING MALL PARKING STRUCTURE. IF YOU'VE EVER SEEN A BLUE LIGHT EMERGENCY PHONE TOWER, WALL-MOUNTED CALLBOX, ELEVATOR ASSISTANCE PHONE, OR AN "AREA OF REFUGE" SIGN, CHANCES ARE YOU'VE SEEN ONE OF OUR PRODUCTS.

We're the industry's leading designers and manufacturers of security and life safety communication products and solutions for customers all over the world. We hear daily that we are hands down the best provider in the industry—the best quality, the best technology and the best solution for every need and every budget, supported by a total commitment to being the best to work with.

LEADING THROUGH CONTINUOUS INNOVATION.

Talk-A-Phone has been in business more than 75 years. We originally made our name supplying mission-critical communication equipment to the military and defense industry. Since our beginnings, we have grown and thrived through continuous innovation, becoming the leaders in safety and security communication as our customers' needs have evolved.

MORE THAN MANUFACTURERS. EXPERTS.

Working with Talk-A-Phone gives you access to highly experienced sales and engineering professionals, experts who apply industry-leading knowledge and capabilities to guide development of a highly effective, 100 percent successful solution.

TALK-A-PHONE MEANS COMMITMENT.

We are totally committed to those we work with, whether it's a consultant, an integrator, a distributor or an end-user. That means we focus on understanding the unique equation that defines value for each and delivering it. It means we do whatever it takes to support project success, even when there are challenges, even well after the sale. That's true commitment.

WE COMBINE UNRIVALED
PRODUCT BREADTH
AND STRONG ALLIANCES
TO DELIVER HIGHLY
TAILORED SOLUTIONS.

Blue light wall-mounted emergency/assistance phone stations are highly visible integrated security solutions constructed of durable stainless steel.

TALK-A-PHONE OFFERS THE INDUSTRY'S WIDEST ARRAY OF SECURITY AND LIFE SAFETY COMMUNICATION PRODUCTS.

Our unique combination of product breadth and technology alliances gives us maximum ability to truly tailor a solution to fit each customer's individual security situation and budget. With Talk-A-Phone, you get more than a solution. You get exactly the *right* solution.

ALLIANCES: MANY SKILLS, MANY TECHNOLOGIES, ONE INTEGRATED SOLUTION

Through alliances with a growing list of industry leaders in unified communications, video surveillance, fiber optics transmission, wireless networking, cellular communications and mass notification systems, we add a level of expertise and up-to-the-minute technologies that integrate seamlessly into our solutions.

AREA OF REFUGE / AREA OF RESCUE ASSISTANCE

ADA-compliant command units, call stations and signage.

EMERGENCY PHONES / HELP POINTS

Blue light emergency phone towers and wall mount stations, call for assistance and access control call boxes, VoIP and analog telephony, cellular and IP wireless accessories, solar and alternate power solutions, integrated CCTV cameras and complete stand-alone phone systems.

MASS NOTIFICATION: WEBS® WIDE-AREA EMERGENCY BROADCAST SYSTEM

WEBS Contact® multilayer software platform, free-standing broadcast towers, indoor and outdoor localized area paging units, analog, IP and wireless options.

COMMERCIAL INTERCOM

Multichannel masters, substations, 2-way paging horns, ceiling speakers, cable and other accessories.

ALLIANCES

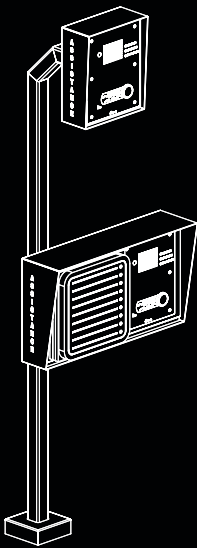

- Unified communications
- Video surveillance
- Fiber optic transmission
- Wireless networking
- Cellular communications
- Mass notification systems
- And more

THE RIGHT SOLUTION AT THE RIGHT PRICE, RIGHT NOW. THAT'S TALK-A-PHONE.

ADVANCED SAFETY AND SECURITY SOLUTIONS FOR A WIDE RANGE OF CUSTOMERS.

Modular gooseneck pedestal mounts are the most versatile solution on the market for providing drive-up access control to cars and trucks.

FOR UNIVERSITIES, HEALTHCARE INSTITUTIONS, CORPORATE FACILITIES, SHOPPING CENTERS, MUNICIPALITIES, AIRPORT AND PUBLIC TRANSIT SYSTEMS ALIKE, SAFETY AND SECURITY HAVE NEVER BEEN MORE CRITICAL THAN THEY ARE TODAY.

Talk-A-Phone is the leading provider of ADA-compliant life safety communication products and mass notification solutions.

Whatever the institution, whatever the situation, wherever the location, Talk-A-Phone has the capability, breadth, expertise and experience to support safety for life.

EDUCATION

All over the world, from large multi-campus institutions to regional community colleges, Talk-A-Phone has a solid reputation for tailored, comprehensive on-campus safety and security solutions. Talk-A-Phone's WEBS Contact® mass notification software assists in compliance with the Jeanne Clery Act, which requires a mass notification system to issue timely warnings in case of an emergency.

HEALTHCARE

Talk-A-Phone solutions help healthcare institutions—often with multiple buildings and multiuse facilities—effectively build a safe and secure environment. More and more university healthcare facilities are using our WEBS® mass notification technology to comply with the Clery Act, developing the ability to broadcast emergency messages through a variety of communication mediums.

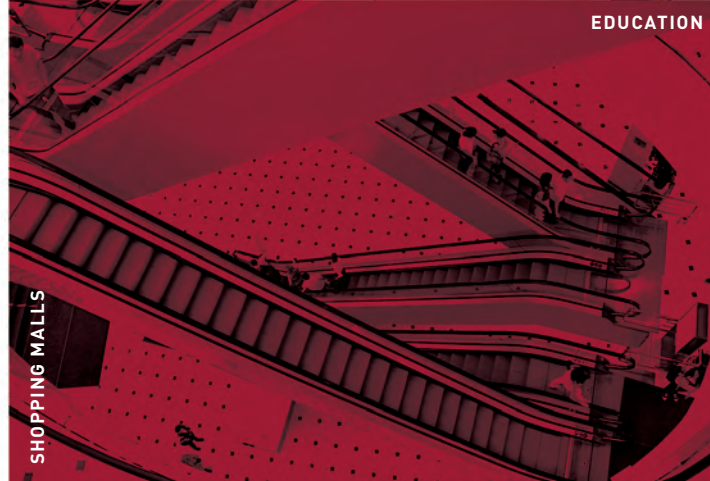

AIRPORTS AND MASS TRANSIT

CORPORATE FACILITIES

EDUCATION

SHOPPING MALLS

MUNICIPALITIES

HEALTHCARE

CORPORATE FACILITIES

Talk-A-Phone emergency communication solutions play an important role in protecting employees, visitors and critical infrastructure in corporate facilities, including native Voice over IP (VoIP) solutions that integrate a variety of emergency communications and mass notification products.

SHOPPING MALLS

Our products are ideal for shopping malls and retail centers, offering a one-touch connection to security personnel and enabling quick, effective response to minor medical emergencies, lost children, shopper altercations and even homeland security issues.

MUNICIPALITIES

In addition to products that meet municipal emergency and information communications needs, Talk-A-Phone's WEBS® solutions utilize a multilayered approach to mass notification, enabling communication to any predefined location or locations with a single action.

AIRPORTS AND MASS TRANSIT

Talk-A-Phone's fully integrated safety and security communication solutions support airport and mass transit security departments in medical and personal emergency response, incident tracking and reporting, and mass notification.

DELIVERING SAFETY FOR LIFE, WORLDWIDE.

FROM SOPHISTICATED SAFETY, SECURITY AND MASS NOTIFICATION SOLUTIONS FOR CITIES, LARGE FACILITIES AND MASS TRANSIT TO SIMPLE ENTRY PHONES, HELP POINTS AND S.O.S. TELEPHONES, TALK-A-PHONE IS MEETING A WIDE VARIETY OF NEEDS FOR A GROWING INTERNATIONAL CUSTOMER BASE.

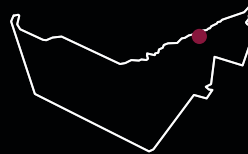

Stylish, rugged free-standing pedestals enable emergency phones and help points to be mounted practically anywhere— analog or VoIP, wireless or hard wired.

“Our aim is to make sure that all students are safe and have that feeling of safety on campus. The Talk-A-Phone solution more than met those needs—it exceeded our expectations.”
— **Andrew Ferguson**, Deputy Proctor, University of Otago, New Zealand

“We have been implementing your products because they look good and integrate smoothly with our other providers in the networking and security areas. We love your quality and fast delivery.”
— **Ricardo Gordillo**, Manager, Group Hemac, Mexico

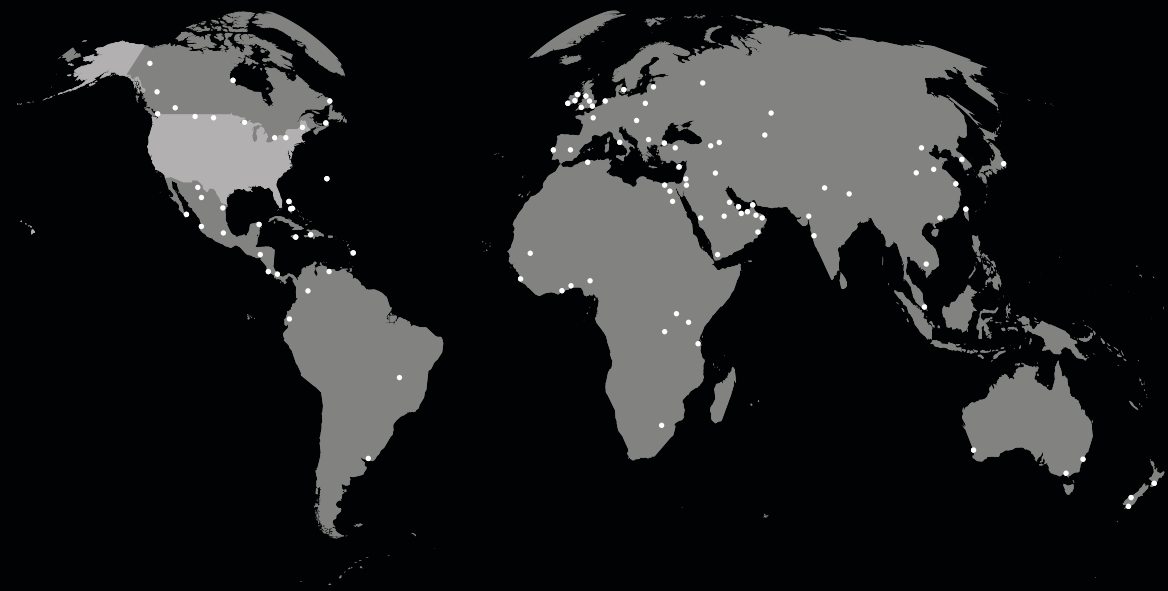

“Swift responses are important for our part of the world. I have always seen Talk-A-Phone as outstanding in terms of customer care and support.”
— **Chenguttuvan Tamilarasan**, General Manager, Business Technology Solutions Unit, Business Communications LLC, United Arab Emirates

“The electrical contractor proposed a variety of devices in response to the specification requirement, and Talk-A-Phone was the only provider that fulfilled all the specified criteria and feature range.”
— **David Farren**, Project Director, Varming Consulting Engineers, Ireland

A GROWING NUMBER OF
CUSTOMERS WORLDWIDE ARE
CHOOSING TALK-A-PHONE
FOR THEIR SECURITY AND LIFE
SAFETY NEEDS.
