

Automatically Detect and Fix Internet Outages on IT Equipment

Avoid costly truck rolls for simple reboots and lost Internet connections. Tripp Lite UPS and PDU solutions with Auto Probe:

- Automatically detect lost Internet connectivity
- Resolve network problems for continuous uptime
- Reboot multiple loads/outlets
- Send email alerts
- Send SNMP traps
- Trigger the shutdown of a computer running Tripp Lite PowerAlert® Network Shutdown Agent (PANSA)
- Support up to 64 unique Auto Probes

Available through the advanced LX interface on more than 150 UPS systems and PDUs, this innovative IP-based feature is perfect for IT applications in remote offices, as well as ATMs, retail kiosks, digital signage and PC gaming centers. It saves time and money on service visits and restores service to remote sites autonomously.
