Industrial
in a new light

PRODUCT SELECTION GUIDE

Turnkey lighting and controls solutions
for warehouses, distribution centers
and logistic facilities

COOPER
Lighting Solutions

WESCO® | ANIXTER

Benefits of quality industrial lighting.

Lighting affects productivity and contributes to the success of an industrial facility.

Warehouses, distribution centers and logistics facilities are growing rapidly with the booming market of online commerce and on-demand inventory. Whether a new construction project or retrofitting an existing building, the quality of the lighting makes a difference. Lighting can affect productivity, energy efficiency, maintenance costs, employee performance and even the number of errors and accidents, making a significant contribution to the safety of workers.

In addition to a safe and productive working environment, today's building owners seek new levels of smart facilities management. With the latest advancements in LED lighting and its control capabilities, building owners and warehouse managers are realizing the benefits through increased productivity, employee safety and energy savings.

Solutions for an industrial environment

Warehouse/ distribution areas

Industry leading LED technology offers instant on and off capability, multiple accessories, light distributions and mounting options.

Offices/ general areas

Cooper's ambient lighting solutions offer installation flexibility for a variety of applications.

Recessed downlights and cylinders designed to meet commercial energy code requirements.

Lighting controls

Full line of relay panels and energy management systems for complete facility control of lighting systems.

Emergency and life safety

Complete selection of life safety emergency lighting, exit signage and Code compliant battery backup.

Security/site

Outdoor site and security fixtures for flood and general area lighting.

CGT LED Panel Series

Metalux

- Affordable panel that fits in shallow plenums with room to spare; Thin 2 ¹⁄₈ inch height
- Robust die-formed steel housing is post-painted for maximum durability
- Acrylic micro optics provide uniform illumination from corner to corner
- Extruded aluminum bezel with mitered corners tightly sealed to housing for durability
- Ideal for office spaces, schools, healthcare and retail merchandising areas

GRLED Series

Metalux

- Built and designed for general purpose lighting applications
- Shallow, low-profile housing, makes it compatible with highly restrictive plenums
- Traditional prismatic A12 lens and door assembly; Insulated ceiling (IC) rated
- Easy to install; Fits most T-grid systems; Below the ceiling maintenance
- Great choice for commercial offices, schools, hospitals, retail and more applications

CONTROLS
GREENGATE

0-10V WBSD Decorator Dimmer

Greengate

- Provides a full-range of linear-slide dimming control of 0-10V compatible light sources
- Allows user to return to previous light level when turning lights ON
- Can be used in single-pole (1 location) and 3-way (multi-location) applications
- Neutral wire is not required for installation of device
- Ideal for light commercial applications; Compatible with decorator style devices and wallplates

OAC MicroSet Dual Tech Ceiling Sensors

Greengate

- Combines ultrasonic and Passive Infrared (PIR) technologies, eliminates false deactivations
- MicroSet self-adjusting technology provides an adaptive and airflow tolerant technology
- Ideal for spaces that have increased airflow due to higher occupant levels
- Drastically simplifies and reduces installation and adjustment time
- Available in line-voltage and low-voltage versions; Compatible with SP20 switchpacks

Control

GDS - Digital Switch

Greengate

- For the ControlKeeper and LiteKeeper 32, LiteKeeper 16 and LiteKeeper 8 lighting control panels
- Offers ON/OFF control of any relay or group of relays in the lighting control network
- Permits multiple control stations to be connected to the lighting control panels
- Provides override and status feedback; Create custom configuration for each button
- Suitable for standard single and multi-gang NEMA wall box; Class 2 low-voltage wiring

Room Controller

Greengate

OCC-RJ45

RC3DE-PL

- Code-compliant lighting, emergency and plug load control
- Low-voltage control panel for ON/OFF and dimming loads
- Click & Go ready with RJ45 QuickConnect ports eliminates wiring errors
- Wallstations are pre-engraved low-voltage switches;
  Fits in standard decorator opening
- Input/Output Device provides connection of any Greengate low-voltage
  occupancy sensor

Open Loop Daylight Sensor/IR Receiver

Greengate

- Measures natural light in order to automatically adjust the lighting zones
- Light sensor ranges: Low (3-300 lux), High (30-3000 lux), Direct Sun (300-30000 lux)
- High light range is selected by default, but can be adjusted using IR handheld remote
- Easy installation in suspended fixture or drop ceiling; RJ45 connection
- Mounting bracket for installation in light well or hard ceiling

Heavy Duty Switch Pack

Greengate

- Provides 15 VDC operating voltage to all low-voltage, 15 VDC, occupancy sensors and daylighting controllers
- A single switchpack can provide power for up to 5 sensors
- Up to 10 switchpacks can be connected to 1 sensor for control of multiple circuits
- Replaces separate transformer and relays; Capable of switching up to 20 amps
- Isolated contacts may also be used to control HVAC, contractors and motors, etc.

Catalog Number	Product Description	Finish	Voltage	Watts	Pallet Quantity	UPC

Emergency Power Control

Greengate

- Allows control of emergency lighting by any Greengate lighting control panel or occupancy sensor
- Eliminates energy waste by allowing emergency lighting to be switched
- Senses a local single normal power circuit
- Wired as either a control device along with a relay panel and occupancy sensor or as a shunt to bypass line voltage devices when normal power fails
