communications, network & security solutions, electrical & electronic solutions and utility broadband solutions products. We endeavor to build long-term relationships with many of our suppliers in order to ensure that products in our inventory have been sourced in an ethical and lawful manner.

In addition to product vendors, we also have vendors which help us to run our business, such as IT, security, legal, financial and cleaning services providers, customs brokers, freight forwarders, commission agents, advisors and other service providers.

Section 3 - Policies and Contractual Controls

Wesco Anixter UK Group's commitment to an ethical and socially responsible approach to doing business includes but is not limited to implementing and enforcing global policies such as:

- [Code of Business Conduct](#)
- [Human Rights Principles](#)
- [Anti-bribery and Anticorruption Policy](#)
- [Supplier Code of Conduct](#)
- [Business Partner Compliance Program](#)
- [Conflict Minerals Policy](#)

In addition, suppliers and business partners are held to high ethical standards by our expectation that they abide by our policies.

To support such programs, Wesco Anixter UK Group has teams of internal advisors and experts whose primary focus is on compliance and corporate responsibility, such as internal audit, trade compliance, legal, human resources, environmental, sustainability and health and safety. We will also call on external experts as needed. This support is available to every Wesco Anixter UK Group subsidiary. Using the combination of our programs and the support of internal experts, Wesco Anixter UK Group ensures its commitment to an ethical and socially responsible approach to doing business at all relevant times.

Wesco International Inc. is a participant in the United Nations Global Compact, the world's largest corporate sustainability initiative. Prior to its merger with Wesco, Anixter Inc was also a member of the United Nations Global Compact. All the companies within the Wesco Anixter UK Group have embraced the ten principles of the Global Compact, including principle 4, which prohibits all forms of forced and compulsory labor. You can find our 2023 Corporate Sustainability Report, which describes our actions to continually improve the integration of the Global Compact and its principles into our business [here](#). The report outlines our efforts and commitment to environmental, social and governance sustainability and sets out our human rights overview.

Our internal policies include the [Code of Business Conduct](#), which applies globally and is designed to guide all employees in complying with the laws and ethical principles that govern our business conduct.

In our standard supplier contracts, we require our suppliers to comply with the [Supplier Code of Conduct](#), which among other things, prohibits forced labor and human trafficking and requires our suppliers to source products only from third parties who uphold similar standards of integrity and ethical compliance as set forth in the Supplier Code of Conduct. Further, in 2023 we rolled out our updated vendor setup forms which incorporate our Supplier Code of Conduct ensuring that from the onboarding stage we require compliance with our policies from our supply chain. As part of our ongoing efforts to identify risks

of modern slavery in our supply chain, in 2023, through an independent external party, the Wesco Group undertook an audit of suppliers to its Owned Brands business to identify modern slavery risks in its supply chain to ensure zero tolerance findings. Where risks have been identified, Wesco Group has resolved many of the risks identified and continues to work closely with its suppliers and internal advisors to resolve such identified risks in 2024.

We also operate a [Business Integrity Line](#), available online or by phone to anyone for the submission of anonymous reports (where permitted by local law) of violations of our policies or the law. The Business Integrity Line is operated by an independent third party and supported by our Global Anti Retaliation Policy that ensures that the whistleblower is appropriately protected.

Section 4 - Risk Assessment and Due Diligence

Business partners that represent a greater compliance risk are required to complete our business partner qualification process. If the business partner fails to satisfactorily complete the qualification process, they will not be paid without the prior approval of a Regional Compliance Officer.

Wesco Anixter UK Group's business partner qualification process includes a due diligence screening of all new or renewing business partners who will be performing services for or acting on our behalf in certain higher-risk countries or categories of service that we identified. High-risk countries are typically identified as (A) any country with a rating of Tier 2 or more in the previous year's Trafficking in Persons Report issued by the Department of State of the United States; or (B) any country with a Corruption Perceptions Index (CPI) score of 40 or less on the previous year's index issued by Transparency International; or (C) recommended for screening by a Regional Compliance Officer or the Wesco Group Chief Ethics and Compliance Officer. Our internal processes include continuous monitoring of some of our approved business partners who have been identified as higher risk and ongoing improvement of those internal processes to identify risks of modern slavery in our supply chains.

All our compliance programs, including our efforts to combat slavery and human trafficking, are overseen and enforced at the highest level in the organization. The strategic plan and day-to-day operations of our compliance programs are the responsibilities of the Wesco Group's Chief Ethics and Compliance Officer and the Wesco Group compliance team.
