

MORE+ PRODUCTS TO BUILD, CONNECT, POWER, AND PROTECT APPLICATIONS AND ENVIRONMENTS AROUND THE WORLD

Urban and rural areas are evolving to cater to advances in technology, while seeking improved public safety, reliable connectivity and an enriched overall experience for residents and visitors. Crucial to realising these enhancements is the physical connectivity layer that supports the end goals of security, mobility and efficiency.

Whether you are seeking agility for budgets, scalability for demand or flexibility for technology choices, we have the infrastructure solutions to help you achieve your smart city goals.

Smart Cities

MORE+ Smart City Expertise

From risk management and power optimisation to community experience and Internet of Things enablement, WESCO and Anixter can help you meet all aspects of your smart city strategy across:

- Building exteriors
- City operations
- Public spaces
- Streets and parking
- Transportation centres
- Utility infrastructure
