

MORE+ PRODUCTS TO BUILD, CONNECT, POWER, AND PROTECT APPLICATIONS AND ENVIRONMENTS AROUND THE WORLD

As data centres continue to expand exponentially, driven by the Internet of Things (IoT), convergence, streaming and in-home technologies, as well as disruptive technologies such as microgrids and vehicle sharing, the need to maintain data centre infrastructure flexibility and reduce time to market can put pressure on builders, owners and operators looking for ways to manage costs.

From construction to the continual evolution of data centre environments, our proven solutions and services portfolio can help you maximise efficiency and resiliency to create smarter outcomes in both gray and white space.

Data Centres

MORE+ Data Centre Expertise

WESCO and Anixter is focused on understanding your data centre challenges and addressing your project needs. From assistance with product specifications to utilising our time-saving deployment services, we drive efficiencies while helping you build reliable, flexible and resilient data centres.

SOLUTIONS FOR DATA CENTRES

WESCO®

ANIXTER

ELECTRICAL INFRASTRUCTURE

- 5-35 kV power cable
- Bare copper
- Building wire
- Flexible battery cable
- Grounding & bonding
- Innerduct & conduit
- Low-voltage cable
- Lugs & connectors
- Power whips
- Switchgear
- Transformers
- Wire ties & labeling

LIGHTING SOLUTIONS

- Intelligent lighting
- Lighting controls

NETWORK INFRASTRUCTURE

- Building entrance protection (BEP)
- Cable management
- Cable runway & raceway
- High-performance copper & fibre cabling systems
- Intelligent infrastructure management (IIM)
- KVM solutions
- Media converter
- Power & asset management
- Power over Ethernet
- Racks & cabinets
- Switches & routers
- Transmission & access products
- Test equipment & tools
- Wireless Ethernet

SECURITY SOLUTIONS

- Access control
- Asset tracking
- Cabinet electronic locking
- Intercom, sound & paging
- Perimeter detection
- Security consoles, racks & cabinets
- Video monitors
- Video surveillance

THERMAL SOLUTIONS

- High airflow dispersion floor tiles
- Network & environmental monitoring
- Power surge & transient voltage surge
- Rack-mount power distribution
- Thermal management: passive, hot & cold aisle containment, in-row closed coupled & precision cooling solutions
- Uninterrupted power supplies (UPS)

SERVICES FOR DATA CENTRES

Advisory Services

- Engineering services for greenfield & brownfield data centres
 - Product & specification review
 - Compliance reviews
 - Value engineering/alternatives
- Supply chain assessments
 - Supply rationalisation

Installation Enhancement Services

- Labeling
- Kitting
- Prefabrication & assembled solutions
- Cable management
- Deployment carts
- Pre-provisioning
- INSTA-REEL
- PARASPINSM

Project Deployment Services

- Logistics planning
- Whole order delivery
- Project planning & management
- On-site materials management

Supply Chain Programmes

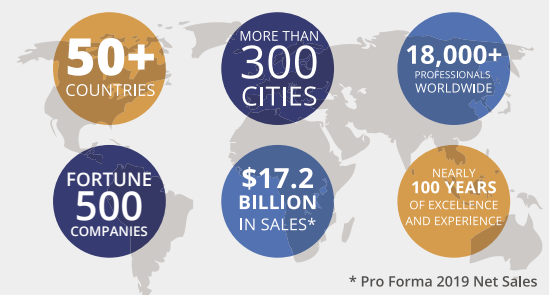

- Materials & inventory management
- Global Service Agreements

Financial Services

- Lease financing
- Project accounts
- Custom consolidated invoicing
- Diversity spend

Product and service availability varies by geography.
