

The Anixter Difference

Anixter's trained sales force can recommend standalone, hybrid and worldwide integrated security solutions. Backed by world-class manufacturers and a distribution network, Anixter's complete product offering incorporates audio, video, access control, intrusion and alarm functionality into your security network. Whether you are considering an analog setup or a feature-rich IP-based network for your security system, we are ready to help you with your audio/video (A/V) applications, which include:

- Audio
- Video
- Access control
- Intrusion and alarm.

Our A/V Solutions

Anixter brings together leading sound, paging and intercom manufacturers to provide audio solutions for both commercial and residential applications. Whether it is a 70-volt distributed or low-impedance system, a 24-volt system or an IP-based platform, Anixter's salespeople are available to help you make informed decisions about your security and A/V solutions.

Our Product Offering

Anixter offers complete A/V solutions including:

- Indoor and outdoor speakers
- Speakers/horns
- Emergency notification systems
- VoIP
- Elevator phones/intercoms
- Autodial phones
- Intercom systems
- Music systems
- Signaling systems
- Microphones
- Mixers and amplifiers
- Audio cables

- Category 6 and 6A cables
- PoE
- Uninterruptible power supplier (UPS).

Our Supply Chain Solutions

A distributor's value to a customer is measured by more than its ability to get the right product where it needs to be. At Anixter, value is measured by helping customers accomplish the following:

- Avoid costs
- Enhance financial performance
- Save time
- Mitigate risk
- Improve productivity
- Create scalable and repeatable services
- Improve efficiency
