

How do you improve public safety with physical security technology?

SMART CITY RISK MANAGEMENT

Creating a safe, secure city requires preparing for a wide variety of challenges, from protecting critical infrastructure to mitigating the risks of terrorism and cyber attacks. Deploying a 24/7 crime prevention and public safety strategy is essential to proactively maintain safety, while also allowing emergency professionals to respond quickly in a crisis situation.

SMART CITY PUBLIC SAFETY

How do you select technology to meet public safety goals in a smart city environment?

VULNERABLE AREAS

- Public spaces
- Building exterior
- Streets and parking
- Transportation centers
- Utility infrastructure
- City operations

PUBLIC SAFETY GOALS

- Reduce vandalism and theft
- Protection of public and private assets
- Traffic decongestion
- Improve travel commute time
- Prevent cyber threats
- Manage access rights
- Collaboration with first responders
- Mitigate violence and terrorism

SECURITY TECHNOLOGY

VIDEO CAMERAS	MOTION DETECTION	PHYSICAL BARRIERS	VIDEO ANALYTICS AND STORAGE
INTELLIGENT LIGHTING	MASS NOTIFICATION	ACCESS CONTROL	SOUND AND PAGING
INTRUSION AND GUNSHOT DETECTION	SOCIAL MEDIA MONITORING	EMERGENCY CALL STATIONS	COMMAND AND CONTROL

WHAT WE HEAR

City officials are dealing with a variety of challenges:

Collaborating with **FIRST RESPONDERS**

Preventing **VANDALISM** and **THEFT**

Mitigating **VIOLENCE** and **TERRORISM**

Preventing **CYBER THREATS**

Managing **ACCESS RIGHTS** to restricted areas

INCREASED ADOPTION OF VOICE, DATA, VIDEO AND ANALYTICS FOR PUBLIC SAFETY

- Already use it
- Do not plan to adopt
- Plan to adopt
- Don't know

Adopting Voice | Data | Video for Public Safety

Adopting Data Analytics for Public Safety

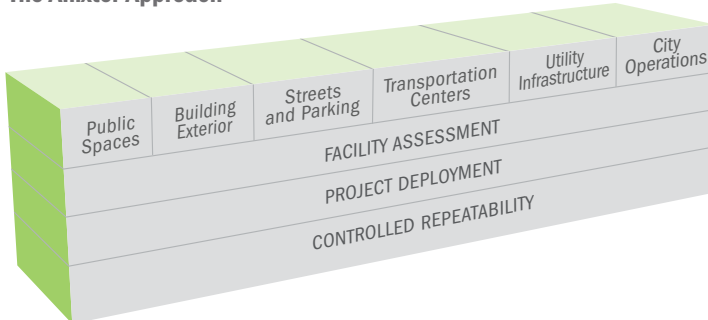

Infrastructure as a Platform
by Anixter

Infrastructure as a Platform by Anixter provides a practical, configurable and integrated approach to deploy physical security infrastructure into your city environment.

SIX LAYERS OF PHYSICAL SAFETY AND SECURITY

The Anixter Approach

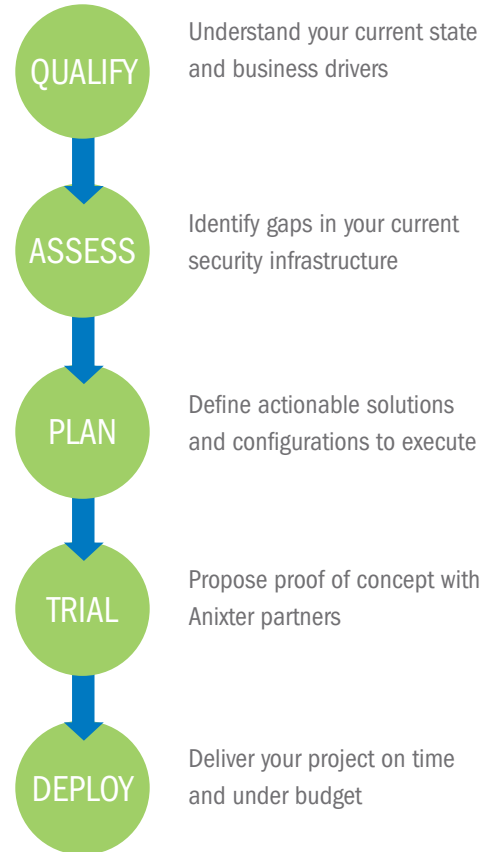

In addition to the micro-segmentation strategy for enhanced logical security, our approach provides facility and IT managers with a clear set of guidelines and best practices for a macro-segmentation strategy for enhanced physical security.

- Public Spaces**
 Determine vulnerability areas throughout the city, including low light and blind spots, to deter external threats.
- Building Exterior**
 Protect perimeter and building ingress of private and public facilities using technology and environmental design.
- Streets and Parking**
 Deliver 24/7 monitoring and efficient control of daily commutes, special events and critical incidents.
- Transportation Centers**
 Secure high-traffic areas with increased visibility using hi-resolution surveillance and analytics.
- Utility Infrastructure**
 Protect critical infrastructure and public utilities, including electricity, water, gas and data, from cyber and physical threats.
- City Operations**
 Utilize a central command and control room to monitor incidents and deliver effective emergency response.

YOUR RISK MANAGEMENT PLATFORM

Anixter Engagement Process

You can further enable interoperability by leveraging our expertise in technology sourcing, inventory management, product enhancement, logistics and e-commerce tools.

PRODUCT SOLUTIONS

- Public safety DAS
- Motion detection
- Ethernet switches
- Asset management
- Security analytics
- Servers and storage
- Command and control
- Intelligent lighting
- Physical barriers
- Gunshot detection
- Sound and paging
- Emergency call stations
- Physical security solutions
 - Video surveillance
 - Access control
 - Intrusion detection
 - Fire and life safety
 - Integrated systems
- Power quality and protection
 - UPS systems
 - Horizontal PDUs
 - In-line surge protection

FOR MORE INFORMATION VISIT [ANIXTER.COM/SMARTCITY](https://www.anixter.com/smartcity)

At Anixter, we enable the connected world. By building, connecting, protecting and powering valuable assets and critical infrastructures, we help to sustain and grow businesses and communities worldwide. We accomplish this by offering full-line solutions, technical intelligence, supply chain expertise and an unmatched global distribution network.
