

A simple, long-reach solution for remote applications

Ready. Set. Connect.

Powered by

Education Facilities Application

Technology is evolving at a faster pace every day with each innovation, so your customers are looking for solutions that integrate easily and seamlessly.

The powerful partnership of Axis Communications and Corning brings together flexible and scalable solutions to you and your customers for maximum impact in the education facilities space. From a K-12 school system to a college or university campus, the Ready. Set. Connect. solution by Axis Communications, Corning and Wesco is a perfect fit to help you meet all of your customers' needs.

Corning preconfigured optical LAN can help you to:

- Reduce network installation time with a quick plug-and-play deployment and no LAN configuring needed.
- Enable remote devices in spaces with unplanned connectivity including hallways, common spaces, parking areas, and perimeters by extending the reach of the network beyond 2,000 feet.
- Adapt for future technology needs with the ability to seamlessly upgrade to a fully managed solution as network requirements change and grow.

Axis solutions enhance student experience by improving facility operations and security even within strict budgets:

- Expand educational opportunities with remote learning, live-streaming, and flexible integration.
- Install contact tracing cameras to help mitigate the spread of germs.
- Improve facility operations with simple management of key areas both on-site and remotely.
- Ensure student, staff, and visitor safety while protecting equipment, supplies, and property from theft and misuse.

Ingenuity delivered.
