

PRODUCT SOLUTIONS BRIEF
CORNING

MICRO DATA CENTER NETWORK MIGRATION

Through our strong global partnerships and alliances with manufacturers such as Corning, we are able to present you with the following offering to meet your specific data center requirements.

EDGE™ SE Pigtailed Cassette Solution

Corning's EDGE Solutions provide a variety of cutting-edge technologies for data centers and storage area networks (SAN) with four unique families to meet your network's unique requirements. The EDGE SE Solutions family creates new possibilities for customers who value the cable management and density of EDGE Solutions but require a field-terminated, fusion-spliced solution, making it perfect for micro and edge data center applications.

CHALLENGE SOLVERS

- A field-installable cabling system offers tailored-length assemblies and eliminates slack concerns from incorrectly ordered pre-engineered lengths.
- EDGE housings are mountable in 19-in. racks or cabinets and provide industry-leading high-density connectivity when combined with EDGE pigtail modules, trunks and jumpers.
- High-density, easy-access hardware for better utilization of rack space generates higher revenue per rack unit without sacrificing functionality.
- Specially designed indents in the shutters ensure that the end faces of the connectors are never touched, reducing exposure to dust particles and possible damage.

THE ANIXTER APPROACH

- **Network flexibility**
Apply designs to accommodate your performance requirements and highly scalable network architecture demands.
- **Cabling topology**
Determine the right choice for your computing requirements with careful consideration for end-of-row (EoR), middle-of-row (MoR), top-of-rack (ToR) or centralized cabling structures.
- **Media selection**
Choose the appropriate cabling media from twisted pair, optical fiber and direct attached to address high-speed bandwidth requirements.
- **Density demands**
Deploy scalable designs that accommodate for uncertain density requirements.

THE CORNING SOLUTION

EDGE HOUSINGS	CASSETTE FIBER COUNT	JUMPERS
24 panels 48 panels	12 - 48 72 - 96 144 - 216	OM3, OM4 OS2

EDGE HD solutions are high-density preterminated optical cabling solutions offering industry-leading connector density.

CORNING

WHAT WE HEAR

Data center stakeholders are dealing with a variety of challenges:

AMORTIZATION of cabling investment

Infrastructure **COMPLEXITY**

Restrictions of **LEGACY SYSTEMS**

SPEED of deployment

Pace of **INNOVATION**, adoption

Infrastructure as a Platform
by Anixter

Infrastructure as a Platform by Anixter offers a standards-based, physical layer approach that provides a foundation to meet the high-performance computing demands of your data center.

CONFIGURE

We help you discover and map your specific needs to the best solution.

- Housing
- Jumpers
- Bulk cables
- Cassettes

BUNDLE

Your validated, preconfigured solutions are packaged and site ready.

- MTP® Compatible Connector
- EDGE™ Pigtailed Cassettes
- EDGE™ Jumpers
- Bulk cable

DEPLOY

Controlled, repeatable solutions are delivered on time and under budget.

- Custom packaging and labeling
- Time-sensitive delivery options
- Staged project shipping
- Tailored last-mile delivery

CORNING EDGE SE FEATURES

✓ INCREASE SPEED OF DEPLOYMENT

- Field-installable
- Pigtailed cassette allows for resplicing opportunities from incorrect or poor splices
- MTP connector modules mate directly to trunk to reduce overall link loss

✓ ACCOMMODATE FOR DENSITY DEMANDS

- Utilizes high-density, easy-access EDGE HD Hardware
- One meter of bare ribbon pigtail can be spliced directly to either ribbon or loose fiber cable
- Adapters have hinged shutters that can be moved out of the way when connectors are inserted

EDGE SE pigtailed cassettes provide the interface between the trunk cable and the LC duplex jumpers to connect directly into the electronics.

About Anixter: anixter.com/aboutus
Legal Statement: anixter.com/legalstatement

At Anixter, we enable the connected world. By building, connecting, protecting and powering valuable assets and critical infrastructures, we help to sustain and grow businesses and communities worldwide. We accomplish this by offering full-line solutions, technical intelligence, supply chain expertise and an unmatched global distribution network.
