The Anixter Difference

Anixter's national network of highly trained security specialists is supported by more than 1,000 salespeople in North America. Anixter has a variety of resources dedicated to keeping its customers current on the latest security products, applications, standards and emerging technologies:

- Infrastructure Solutions LabSM with end-to-end testing and performance reports
- Compatibility testing to confirm interoperability of products
- Technical knowledge of complete systems for surveillance and access control
- Deep understanding of IT and telecommunications standards
- Technical support with regional security managers and local networking and security experts
- Training and educational opportunities through Anixter UniversitySM

Business Drivers Influencing the Purchase of Security Solutions

- Migration from analog- to network-based systems
- Loss of revenue
- Protection of people and assets
- Compliance with federal regulations
- Integration of systems
- Building and fire code regulations
