

# Solutions for Locksmiths and Glaziers

We build, connect, power and protect the world.

Ingenuity delivered.

**Ingenuity delivered.**

# There for You at Every Door

You can count on us to help meet your challenges with expertise, innovations and solutions to secure the businesses and homes you serve.

## **We Are a Trusted Partner**

Whether you are rekeying a facility, replacing hardware, improving key control, or retrofitting for touchless access, Wesco can make valuable recommendations for any opening or application. Our team of experts has the parts and smarts to support your locksmith business.

## **Expertise You Can Count On**

### **Physical Security Expertise**

From validating security systems in our Solutions Lab to helping you to expand into new technologies with specialist support, our unique skills, experience, facilities and vast inventory enable us to build creative, tangible solutions that can move your business forward. As a long-time sitting member on industry standards committees, including ONVIF, TIA, IEEE, HDBaseT, and SDVoE, you can count on our technical guidance.

### **Physical Security Training**

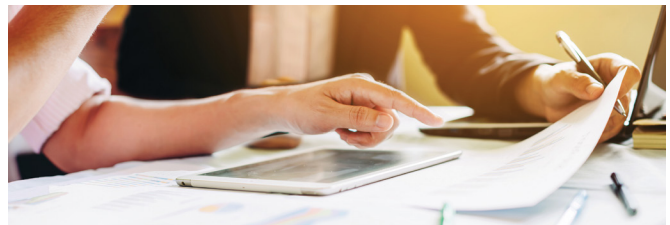

Your customers' challenges are constantly evolving, stay up to date on how you can help them meet their shifting needs with our tailored trainings, available on-site or online. We provide access to online courses, along with numerous white papers, technical guides, and partnerships with leading supplier partners and standards organizations. We have the training resources you need to expand your physical security offering and create more value for your customers.

# Save Time. Reduce Costs. Mitigate Risks.

## Labor-Saving Services

Skilled labor is hard to find, and scaling up for larger projects can be difficult. Our labor-saving solutions help you tackle big projects and improve day-to-day productivity.

- Keying services
- Custom-kitting and labeling
- Deliveries coordinated according to project
- Camera configuration and DOA check

## Inventory Management

Efficient and accurate inventory management is critical on every project, however it can be labor and time intensive without the right solutions in place. Our engaged and effective problem-solvers dedicated to helping you getting the job done right. We provide inventory management solutions to support you from our site, your site, and the job site.

- Integrated supply and just-in-time delivery
- Forward provisioning and dedicated inventory
- Manual and auto-replenishment programs
- Vendor-managed inventory (VMI)
- Remote job site storage
- Service truck inventory tracking

## Managing Your Cash Flow

Optimizing your cash flow can often create the difference between profitability and profitable growth. Staged deliveries, inventory management, and our financing options can help you keep more cash on hand for your growth goals.

**Staged Deliveries** — Receive material as needed to spread out invoicing and payment due dates.

**Inventory Management** — Optimize your inventory and put your budget at ease.

**Financing Options** — Finance larger project costs to prevent a cash crunch.

Our Locking Solutions Team can help you make the most of our deployment and supply chain services. Call **844.522.5275**
