PRODUCT SOLUTIONS BRIEF

AXIS COMMUNICATIONS

DATA CENTER RISK MANAGEMENT

Through our strong global partnerships and alliances with manufacturers such as Axis, we are able to present you with the following offering to meet your specific data center requirements.

Axis Data Center Perimeter Defense Network Cameras

The first data center physical security layer—perimeter defense—controls authorized and unauthorized access to the data center's property. Axis has a complete line of PTZ dome, fixed dome and fixed thermal network cameras to address your data center's outdoor security needs.

AXIS Q35 Series fixed domes are ideal for perimeter security applications.

CHALLENGE SOLVERS

- Challenging landscape and lighting conditions
  - Thermal cameras are excellent for detecting people, objects and incidents from complete darkness to sunlit and other challenging conditions.
  - Axis cameras with Lightfinder technology can maintain image color quality in dark conditions.
- Controlling authorized and unauthorized access
  - Advanced motion detection can integrate with the camera's internal event manager, enabling various system notifications and providing a proactive security response.
  - Audio detection alarms can compliment video motion detection by reacting to events that are too dark for the video motion detection functionality to work properly and detect activity in areas outside the camera's view.
- Unattended perimeter weak points
  - Axis Cross Line Detection spots moving objects that cross a virtual line, making it possible to automatically trigger an event.
  - Panoramic and high-resolution cameras capture activity in large areas.

THE ANIXTER APPROACH

Six Layers of Physical Security – The Axis solutions on this brief focus on Layer 1:

- **Perimeter defense**
  Establish a physical boundary at the property edge to deter external threats.

WHAT WE HEAR
Challenges from various data center stakeholders:

PROTECTING the company's image

ACHIEVING regulatory compliance (HIPAA, PCI DSS, SOX, GLB)

BALANCING investment in both physical and logical security

STAYING one step ahead of adversaries

EXECUTING policies and procedures specific to the data center

THE AXIS SOLUTION

PTZ DOME NETWORK CAMERAS	NETWORK FIXED DOME CAMERAS	NETWORK FIXED THERMAL
AXIS Q6045-E Mk II	AXIS Q3505-VE	AXIS Q1932-E series cameras

Infrastructure as a Platform
by Anixter

Infrastructure as a Platform by Anixter provides a practical, configurable and integrated approach to deploying physical security infrastructure into your data center environment.

CONFIGURE

We help you discover and map your specific needs to the best solution.

- Resolution
- Frame rate
- Range of motion
- System integration

BUNDLE

Your validated, preconfigured solutions are packaged and site ready.

- Video management software
- PoE midspan and splitters
- Media converters
- Video surveillance control board

DEPLOY

Controlled, repeatable solutions are delivered on time and under budget.

- Custom packaging and labeling
- Time-sensitive delivery options
- Staged project shipping
- Tailored last-mile delivery

PERIMETER DEFENSE NETWORK CAMERA FEATURES

✓ **PTZ DOME NETWORK CAMERAS**

- HDTV 1080p, 32x optical zoom
- (IK10) vandal-resistant
- Arctic temperature control
- Automatic defog functionality

✓ **NETWORK FIXED DOME CAMERAS**

- IK10+ outdoor models
- Forensic capture
- 1080p at up to 60 fps
- Lightfinder technology

✓ **NETWORK FIXED THERMAL CAMERAS**

- IK10+ outdoor models
- Intelligent video applications
  - Video motion detection
  - Cross line detection
  - Shock detection
  - Audio detection
- VGA thermal imaging
- Thermal resolution of 640x480

Steady, high-quality video in tough environments
